### STC To Ask Board To Increase New Appropriation

Mr. Smith In Step With Expansion Outline To Ask Additional Funds

Murfreesboro State Teachers College will ask for a 50 per cent increase in its appropriation for the ensuing two years, and will seek approval for a \$250,000 building program, President Q. M. Smith said yesterday.

Need for additional teaching personnel and new equipment will be the basis of the request for a \$50,-000 a year increase in the appropriation. Smith said. he college received \$200,000 for the two years now ending, and will ask \$300,000 for the next two years, the president said.

The proposed building program, which would be a step in the longtime expansion outline, includes a health and physical education building, to cost \$100,000; a joint cafeteria-student union building to cost \$100,000; and an industrial arts building to cost \$50,000.

The industrial arts building, Smith added, might include the present cafeteria building. It would have quarters for the present wood an dmetal working shops, now located in the administration build-

recommendation will be placed before a committee of the State Board of Education which will visit the college this wweek, Smith said. The committee is composed of Dr. Doak S. Campbell, Dr. C. Y. Clarke, Ernest C. Bell, and Maj. Howard B. Shofner.

The education of our youth is for progress, not demolition. The young people in American colleges are prepared for peace, not war.

Our fathers fought and planned a nation, "indivisible, with liberty and justice for all". They were not too busy to offer thanks for the blessings they received, and now, in a time when peace and security are to be found only in America-every day should be Thanksgiving Day!

We are blessed beyond the measure of words to tell. Ours is the burden of equality and tolerance to bear. We must carry the ideals of freedom for the rest of the world. How better may we assume the duties than to be conscious every day of the many things for which we may be thankful?

To us, here at S. T. C., Thanksgiving should carry an added significance. We are privileged to learn the things for which democracy stands.

We can develop not only a sense of values, be our duty to direct and influence the lives of the to come. students with whom we come in contact. To do this

Ours is a proud heritage, and proud we are to accept it. May we carry it forward to the best of our ability and cherish it to the death.

### Cooperation

Cooperation is a word which means "working together". It has meant that since the beginning of time and will continue to mean that until the end of

In the minds of many, here at STC, there is no such word and they show it whenever they are called upon to work together. For example: Not many weeks ago, just before the football team embarked for West Tennessee the students were called out to the bus to give a rousing send-off for the team. There weren't over fifty there. Out of seven hundred and fifty only fifty people cooperated—that is In return all they ask is a little moral support and about fifteen per cent. That leaves eighty-five per cent of our students who failed when called upon for a small bit of cooperation.

Another example: All freshmen were asked to wear their caps until the Thanksgiving game. How many have you seen lately?

The sophomore class had a social a while back and the only way they could get enough money was to open it to the entire student body. Now, letting all classes attend is a good thing, but, the classes should cooperate one hundred per cent first.

We elect cheer-leaders each year-for what? To stand almost alone in front of a group of dead students and yell their hearts out for the ball teams. Other schools have fine cheering squads-why can't we? Mainly, because we have no school spirit.

Now, this article isn't directed only at the students. We also need more cooperation from the faculty. They should back our student undertakings, but do they? No! One could count on his right the number of faculty members who will go out of there is a glee club here? Do you know there is a their way to aid in a student project.

Many times the student remain in class meetings after the period starts-that's fine, they should stay your benefit? No, you don't know because you for the meetings. But, when they finally get to their class the teacher has marked them absent or makes a good glee club man, a good dramatic club man or embarrassing remarks about their being late.

Many times the students can prevent being late participate in these activities. to class, but there are also many times when it is impossible to beat the bell. It is a known fact that students should relax a few minutes between classes and one way to do it is by talking to a friend or smoking a cigarette. #### God Bless America

"What's become of 'The Star Spangled Banner'-or have we abandoned it as our national anthem?" asks the Purdue Exponent. That's a question Published Semi-Monthly by the Students of the that a lot of college newspapers have been asking, half tongue-in-cheek, half seriously,

The Exponent "won't debate the merits of Irving Berlin's 'God Bless America' but we do dispute its right to the same honors as the national anthem. We think that the substitution of 'The Star Spangled Banner' for 'God Bless America' on a few public programs would be a welcome change-at least for college students who have built up a terrific 'hate' for the very obvious attempt to synthesize patriotism where patriotism has already exsited".

The Daily Reveille raises a protest at Louisiana State university, taking its readers back to one of the recent football games. "When the band played the super-popular 'God Bless Amreica', thousands leaped to their feet, males swept their hats from ates and slapped them over hearts, and stood stiffly at attention while the tune swung on. We wish that such respect would be shown 'The Star Spangled Banner' "

The Reveille believes that 'if the fervid standees derman, Margaret McBridge, Ruth Tittsworth, Michel- would stop a momemnt to consider the silly tribute didn't pick out this geographical spot to endow all his lofty virtues. We should be proud that we were borpn here; we should also remember that it's pretty much of a genetical accident that we are Americans. God doesn't 'bless' America; 'blessings' come where people are free to think and where those men act decently toward their fellows".

El Gaucho takes up a similar cry at Santa Barbara college. "Understand", says El Gaucho, "we Three hundred and twenty years after the Pil- don't object to peiple's rising to sing 'God Bless grims landed at Plymouth Rock, we are still able America". We think it is a very nice gesture to the to offer thanks to God for His watchful care over us. composer and to the singer who made it famous, and Can we possibly realize the distance that we have nothing more. But one's ability to bellow forth come in that length of time, with the ideal that chauvinistic babble is hardly an indication of one's

Realizing that "there will probably be FBI men That ideal is freedom, a freedom that means on our trailing by morning", the Dartmouth declares would grind independence of thought, deed and word America". The song, says the Dartmouth, brings up a "mental picture of someone waving a flag because Our portion, no matter how humble it may be, it's fun to wave a flag and everybody else is doing is exalted by our independence. We may worship it. It seems as though we could do a little more than God and find strength in His wisdom. We can laugh, place America's well-being musicaly in God's hands and call it patriotism".

The Anvil Chorus concludes with the observations o fthe Cliff Dweller at the University of Pittsburgh, which recalls that "when the country was growing and expanding in every direction, it sang boisterously and challengingly. We as a nation must grow and expand again. We need a song of spirit and courage. Let the song pluggers play and sing Berlin's tune of apathy, but let Americans have a song like 'Onward America'".

It is suspected the collegiate writers are not really as excited about "God Bless America" and its possible implications as they seem. But most of them feel America's patriotism must have a more fundamental expression than the musical plea for divine blessings.

> Half-hearted school spirit, or more often no spirit at all, is a sure way to kill any evidence of cooperation and interest that the heads of a school may have in the student ody.

> The lack of pep and spirit that is evidenced at most of our games is nothing short of disgusting. The reasons that those boys are out there playing football are not mercenary. First they have a love of the game for its own sake, and further they possess an abundancy of pride-pride in the school that they are playing for oftentimes against superior odds. Is it too much to ask, then, that we go out there and show pride in our school and in them by displaying a little life and enthusiasm? If we can't do that we might as well give up the ghost and start taking a rest cure for a lagging liver.

### Participation

Why do we come to college? To broaden ourselves in order to work with and benefit our fellow man. Do we get all that is offered in college? No! Why? We don't put all we can into our work. I am taking it for granted that we give our books all the time we can but are books the only things broadening in college? All of us will agree that this is not true. Yet some of us never do anything except read books and meet classes. Do you know dramatic club here? ### 'Our Town' Given **Great Ovation By** Large Audience

By CHARLOTTE M. STEPHENSON First curtain call! The air is heavy with the thunderous applause of an appreciative audience. Second curtain call! Still the ovations of a great play well done are not silenced. For a third time the blue velvet swings back as S. T. C.'s actresses and actors greet with emotion.

This is the story of the reception each quarter. of "Our Town" as presented by the Buchanan Dramatic Club, under the direction of Edward L. Tarpley. The time and setting of the story las last Thursday night in the State Teachers College auditorium.

From the moment the stage manager, so ably played by Ernest Hooper, president of the dramatic club, removed his grey hat and in his theatrical style began a narration on Grover's Corners, until the little village lay in darkness save the stars and a few lights over at the livery stable, the audifor just one good nod. ### HOME EC

The Home Economics Club held its annual initiation service for the new members, Friday, November 8, in Science Hall. Martha Northern explained what home economics stands for and then lighted the torch carried by the president, Quindal Collins, who in turn lighted five other candles each of which represented an ideal and purpose of the club. Each officer of the club then lighted a torch from one of the five burning candles. After pledging herself to the club each new member came forward and lighted her candle. The ceremony was closed by the singing of "Hail, S.T.C." by the entire group.

Following the refreshments an important business meeting was held. It was decided that the club would sponsor a kid party for the freshmen on November 20.

Captain Patty and Bob Sarvis are the line. It will be some time before the school will again have two boys like them.

Charles Greer transferred from the backfield to the line at the beginning of this year and has done a wonderful job ot his new post. He is one of the fastest linemen ever to wear a Raider uniform.

Bill Evans is the other senior in the line. Bill became a regular for the first time last year and returned this year to hold on to his place despite some good competition.

Bill "Ug" McCrory has preven himself very valuable this year. "Ug" has been in there running, assing, and kicping every game. He is a great little fighter.

### Rivalry Between Teachers and Eagles Bitter; Teams are Equal

#### Raiders Put Up Great Fight But Are Beaten By Bulldogs 13-0

Again the Raiders lose a heartbreaker, handicapped by injuries in the first quarter. The Blue Raiders fought valiantly, but to no avail, to overcome a 13-point lead rolled up by Union.

Late in the first quarter Perry took McCrory's kick on his own 40 and returned it to the Raiders 14 yard line. On the play from there, Perry shot a pass to Tipton in the end zone for the first tally. Score, Union 6, Raiders 0

In the second quarter McCrory kicked to Willford on his own 21, returning it to his own 46. At this point, McCrory was injured and replaced by Taylor. On the next play, Walters ran over the weak side to the Raiders' 21. On the third ed to Tipton who ran 5 yards to

Two very prominent international figures died on the same day recently, Neville Chamberlain and Key Pittman, characters quite different bu tyet much alike. Both were ultra-conservative in outlook but one made the fatal error of trusting the word of an untrustworthy person, the other insisted on the utter inability of trusting him and strongly emphasized resistance to totalitarianism. Neville Chamberlain will be remembered as a man who was conscientiously but stubbornly wrong at a critical time (we will have to wait to see whether he was disastrously wrong or not). In Pittman the Senate has lost if not a great man, at least an important and intelligent one. The loss will be all the more serious if he is succeeded as chairman of the Senate Foreign Affairs Committee, by Senator George of Georgia, whose background smells strongly of appease-

## HE BOWLS WITH EXTRA SPEED AND EXTRA POWER

## **SMOKES CAMELS** FOR EXTRA PLEASURE

His "Fireball" made him a bowling champion. Slower burning won Joe Norris to Camel cigarettes

WHAT A MAN in a bowling alley! He was the "boy

wonder" a decade ago. Today, with a long list of na-

tional titles at his belt, the bowling world still wonders

just how he gets such pin-blasting power and such hair-

line control ... such extra power and extra control'.

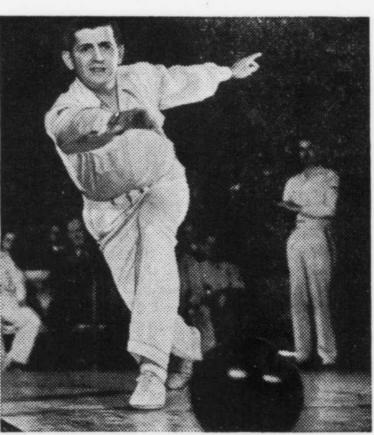

No question, though, how Joe Norris gets the extras in his cigarette. He turned to the slower-burning brand... Camel...for extra mildness and found several other pleasing extras as well, including extra smoking.

Slower burning...costlier tobaccos-what pleasure they can add to smoking! More mildness and coolness because Camels are free from the irritating effects of too-fast burning. More flavor-because slow burning lets the flavor come through. And along with extra pleasure-extra smoking per pack (see below, right).

THIS IS the "Fireball." Joe Norris (above) uses a two-finger mineralite ball with narrow grip-a quick-breaking hook-throws one of the fastest balls in bowling. But no speed...no fast burning... for Joe in his cigarette. It's always slow-burning Camels. He says: "Camels give me extra mildness. And there's nothing like a Camel for flavor."
