#### **Calisthenics** Program At **Mid-State Ends**

Students Should Stay In College, President Renew C.P.T. Training

"The participation of the entire quarter has been fine. However the calisthenics and other training was given for your good and you should keep them up after you leave school in a few weeks," President Q. M. Smith told the students of Tennessee State this moroning as he announced the cessation of mass calisthenics for this quarter.

"There is onlya one time you can get an education, and that is now," President Smith continued. "Some of us will probably be in service before you come back this fall, but regardless of where you are there is a challenge to all youth things that you are prone to look Came to Dinner." to and take up the hard things, for it is these that will help you when and if you meet an enemy that may be much stronger than you are," he said.

"There is a definate possibility that we will offer a Civilian PiPlot Training course this summer that will allow those who take it to get their private pilot's license Funeral services for Lt. Constant without cost to themselves. That is, if enough townspeople and stu-

## Parents To Receive

The parents of two Tennessee State College seniors who would have finished college in June, but have entered the nation's armed forces, will take part in the TSC graduating exercises and receive their sons' diplomas, Dean N. C. Beasley announced recently.

The students are Julian Brantley, son of Mr. and Mrs. S. K. Brantley, Jr., of Shelbyville, and Billy McDonald, son of Mr. and Mrs. H. H. McDonald of Gordonsville. They registered for the Spring quarter at TSC in March and came to school for a number of weeks before leaving school.

Under a new ruling by the State Board of Education all students who attend college a part of their final quarter but leave for military service are entitled to a degree as if they had attended the entire quarter.

The parents of the boys will march in the graduating procession, sit on the platform with the graduates and receive their sons' degrees.

Julian Brantley was inducted in the Army two weeks ago. Young McDonald is now at Naval Training Station receiving training as a member of the Gene Tunney physical training unit.

#### "A Just Peace"

The world can have a "just peace" when the war is over, but not if the dictators' terms. These are beliefs of Dean William O. Scroggs of the graduate school at Louisiana State university.

If we seek to obtain "peace without victory," which some pacifists are now advocating, we shall have to submit to the German fuehrer and give up our liberty, Dean Scrogg asserts. Such action would not give us a just peace, but rathre would bring us both defeat and dishonor, he said in a recent state-

"This war is like a surgical operation," he continued. "It cannot be stopped while we are in the middle of it. The malignant cancor which is gnawing at the vitals of our civilization must be removed, and it can be removed only by heroic effort. The operation must go on, even though it does cause loss of blood

"If we are to have a just peace, we must obtain security as well as a cessation of warfare. Such a peace will require the re-establishment of internatonal economic life and also some form of internatorganization to safeguard the world against a recurrence of a recent evils. After the war, while setting our house in order, we shall need to collaborate with other nations who are likewise striving to bring about order in theirs.

"One of the main post-war problams will be to prevent a worldwide economic collapse and the inevitable political disturbances which would follow. To avoid such a debaclo, every effort should be made to stimulate production, trade, and consumption throughout the world, and not merely in the victor countries. When the dictators go out, dollars and doughnuts should roll in and help repair the damage wrought by their misrule.

"In post-war reconstruction we must, above all, avoid regimentation o ranything resembling totallitarian methods in promoting world recovery: otherwise we shall again lose the peace, as we did after the first World War.

We shall need not only statesmanship of a high order on the part of the national leaders, but the education of the people of all countries in the fundamental economic and political requirements for enduring peace and prosperity." -By Associated Collegiate Press A Blessing To Count

When Murfreesboro comes to count its blessings, we have a strong feeling that high on the list should be our thanks that no great army camp has been established near enough to engulf us as Camp Forrest has done and is doing to Tullahoma,

We do not mean that unpatriotically. If the government were to decide that it was for the best interest of the nation that a great military project be established even within our city limits, we would accept it, work with it, help it all we could. But as long as such is not the case, we have no regrets.

Tullahoma undoubtedly is a better "business" town right now because of Camp Forrest. But to ingissue of the year we placed a faculty and student body during our way of thinking, Tullahoma's value as a town birth announcement—it seems more the last four years. to live in, a town to rear families in and enjoy life like two weeks than nine months— It seems a long time since we in and to die in, is about one-tenth what it was and begad we will write our ob- entered college, for so much has before Camp Forrest. Murfreesboro missed most of the air base construction-stage benefits, but we also missed the headaches that the construction-stage boom might have brought us. Now, it appears almost certain that Murfreesboro is going to be the headquarters for the most desirable element after the base is in oper-

The highest-ranking officials are going to reside here, and that will attract other officers and their families. In effect, Murfreesboro is going to be the exclusive residential "suburb" for the air base, and that sounds good enough for us.

In the long run, we are thankful to note, Murfreesboro will be helped by the proximity of the base, and yet not to such an extent that the letdown of the aftermath will undo what gains we make.

#### Soldiers And Fear

Almost every man, whether he's draft eligible or not, wonders just how he would feel at an order to go "over the top."

A popular magazine presents one side of the answer, in a quotation from a World War soldier, one who was awarded a medal for heroism under

"A minute before it came time to go over the was a bestial struggle, that war top," says this ex-soldier, "nobody in my outfit could have lifted nimself out of the trench. We were "But they went on to conclude, scared stiff, or maybe it would be better to say, wrongly, that the soul-sickening scared limp. But being scared doesn't interfere with loss of wealth and life might easily your fighting-I think it helps. You never think have been avoided. And the man of running away—there's no safety in that direction. in the street, agreeing with the porarily for study), Dr. Sims Tuley; Sarah, the Cook, Ruth Tay-What you want to do more than anything in the intellectual, said, 'We were suckers' world is to get to the danger and eradicate it. The The war had seemed, to them, to only way to do that is to attack. Fear doesn't make prove one thing-that the only way you run away. It makes you run forward."

"I never did see a fearless man," the veteran liances, they argued, America continued. "I never did see any deserters either. would never have to fight. One of the chief troubles was that men would get Only Losses Counted too far ahead, in danger of being hit by their own barrage. What I never could understand was the fellows that would go A.W.O.L. up to Paris to see now they were wrong. They were During our freshman year, stu- ginia Paschal, Frances Sims, Ruth a girl, or get drunk. I used to envy them. I never did have enough nerve to go A.W.O.L. and risk getting into trouble."

### Van Fox Heads Buchanan **Dramatic Club**

Van Fox of Murfreesboro was elected president of the Buchnan Dramatic club of Tennessee State college recently, Professor Edward L. Tarpley, director of the club, announced today. Fox had one of the outstanding minor roles in the club's production of "The Man Who Came To Dinner' to be presented in the TSC audi-

torium recently. Alternate omcers were elected for all positions to keep the war from interrupting the club program. Ruth Englert was elected alternate president. Other officers and their alternates follow: vicepresident, Carolyn Adams, Margaret Bruner; secretary, Ruth Taylor, Ruby Lee Snell; treasurer, Betty McCampbell, Clyot Lane; sergeant at arms, Leon DeLozier, Frank Griffith.

Navy V-6 Program

Dean N. C. Beasley Mid State College Murfreesboro, Tenn.

Dera Dean:

I regret very much about not being able to attend graduation exercises but due to present conditions I will not be able to get a furlough. The Navy now has a speeded up program and they are trying to turn men out of this remain school as fast as possible. They are not giving any furloughs for any reason, even when we get through our training we will be sent right on to a permanent base.

I will try to give you a few facts about this program. The aim is to make the personnel of the Navy as physicall yfit as possible and to attain the highest possible morale with regard to normal duties. Our daily duties are as follows: Reveille is at 5 o'clock, we then have the Tuney calisthenics for 30 minutes also some road exer-

cises. The next two weeks we give them to our squad. The last ing Officer. In that case, you will two weeks we take platoons out and give the calisthenics to them. We have breakfast at 6 o'clock and clean up period till 7:30, we have been drilling for about two hours but after this week we will

#### Freshmen, Sophomores, 17 THRU 19. Enlist now! Stay in college! You may qualify for a Naval Commission on the sea or in the air.

Freshmen. Sophomores. Here's a challenge-and an opportunity! Your Navy needs trained men. Trained men to become Naval Officers! And your college is ready to give you that training now.

#### Here's New Navy Plan

If you're 17 and not yet 20, you enlist now as an Apprentice Seaman in the Naval Reserve. You then continue in college, including in your studies courses stressing physical training, mathematics and physics. After you successfully complete 11/2 calendar years of college work, you will be given a classification test.

#### **Aviation Officers**

If you qualify by this test, you may volunteer to become a Naval Aviation Officer. In this case, you will be permitted to finish the secbefore you start your training to become a Flying Officer.

However, at any time during this two-year period after you have reached your 18th birthday, you may, if you so desire, take the prescribed examination for Aviation Officer . . . and, if successful, be assigned for Aviation training. Students who fail in their college courses, or who withdraw from college, will also have the privilege of taking the Aviation examination.

U. S. Navy Recruiting Bureau, Div. V-1

you will be permitted to finish your and will then be ordered to active hikes. duty as Apprentice Seamen. But, even in this event, because of your college training, you will have a better chance for advancement.

# We Need Every College Man In Officers' Training

\* To Man the Mightiest Air Army in the World \*

#### Make Your Choice This Week For Present or Future Officers' Training

IF your blood boils at the very

thought of an enslaved world . . . If Jap treachery and Nazi savagery make you see red and itch for a gun -calm yourself with the promise that we shall pay them back with compound interest!

We shall—and you as a college man now have the opportunity of serving as a Flying Officer-a Bombardier, Navigator or Pilot-with that branch of service which will do that paying back in person-the U. S. Army Air Forces!

Under the new Army Air Force Reserve Plan-if you are a Senior or wish to leave school-apply now for your Aviation Cadet training.

You and your friends can share together the work and fun of flight training, and after approximately 8 months—earn the right to be flying officers in the U.S. Army Air Forces!

On the other hand, if you are a Freshman, Sophomore or Junioryou can, if you like, continue your studies under the Deferred Service Plan of the Army Air Forces-and become better prepared for Officers' Training later.

#### **New Simplified Requirements**

To qualify you must be 18 to 26 (inclusive), physically fit-and pass a new, simplified mental test which college men find easy.

When you are ready-and facilities are ready-you begin as an

#### THREE ENLISTMENT PLANS FOR COLLEGE MEN

Juniors-Sophomores-Freshmen May Continue Their Education

1. A new plan allows Juniors, Sophomores and Freshmen, aged 18 to 26, inclusive, to enlist in the Air Force Enlisted Reserve and continue their schooling, provided they maintain satisfactory scholastic standing.

#### All College Men May Enlist for Immediate Service

2. All college students may enlist as privates in the Army Air Forces (unassigned) and serve there until their turns come for Aviation Cadet training.

3. All college students may enlist in the Air Force Enlisted Reserve and wait until ordered to report for Aviation Cadet training.

Upon graduation or withdrawal from college, men will be assigned to active duty at a training center as facilities become available.

If the necessity of war demands, the deferred status in the Army Reserve may be terminated at any time by the Secretary of War.

The new Army Air Force Enlisted Reserve Plan is part of an over-all Army Enlisted Reserve Corps program shortly to be announced. This program will provide apportunities for college men to enlist in other branches of the Army on a deferred basis and to continue their education through graduation if a satisfactory standard of work is maintained. In case of necessity the Secretary of War shall determine when they may be called to active duty. It is understood that men so enlisted will have the opportunity of competing for vacancies in officer's candidate

This plan has been approved in the belief that continuance of education will develop capacities for leadership. (Reserve enlistment will not alter regulations regarding established R. O. T. C. plans.)

Aviation Cadet at \$75 a month, with expenses paid.

If you have majored in science or engineering you can try for a commission in the ground crew-in Armament, Communications, Engineering, Meteorology, Photography.

As a Second Lieutenant on active duty, your pay ranges from \$183 to \$245 a month.

#### **80% Have Won Commissions**

Due to thorough training-about four out of every five Aviation Cadets this past year received Second Lieutenants' commissions—of which 67% are now flying officers.

The tremendous expansion of the Air Forces should assure rapid advancement in all branches. And after the war-you'll be ready for the evergrowing opportunities in aviation.

#### Settle Your Service Now

The years ahead are war years-and every college man should make his plans accordingly.

To make America supreme in the air we need every college man who can qualify for active or deferred service.

So take advantage now of this option. You may never again have such opportunities.

See your Faculty Air Force Advisor for information and help with details. Join the thousands of America's college men who are enlisting this week!

NOTE: If you are under 21, you will need your parents' or guardian's consent. Birth certificates

and three letters of recommendation will be required of all applicants. Obtain the forms and send them home today.
