VOL. 16—NO. 1

MIDDLE TENNESSEE STATE COLLEGE, MURFREESBORO, TENN.

WEDNESDAY, SEPT. 16, 1942

Night Classes Offer Students Further Training

Drawing, Accounting Offered; Midgett, Wheeler and Freeman Are Instructors

According to Coach O. L. Freeman, there are still several openings available in the night school classes, now being conducted on the T. S. C. campus.

The courses are under government supervision, with the prime purpose of fitting people for vital defense jobs, to replace men now being called into the Armed Service. They are open to all persons having at least a high school education.

Courses are now being offered in general mechanical drawing, sheet metal drawing, machine drawing, architectural drawing, and engineering. Classes meet 5 nights weekly, with Mr. Freeman conducting the classes on Mondays, Wednesdays, and Fridays. Mr. W. J. Wheeler conducts on Tuesdays and Thursdays. The hours are from 7:00 p.m. to 10:00 p.m.

Classes in accounting are also open at the same hours, being handled by Mr. Midgett. These classes are only held on Tuesdays and Thursdays.

The classes are presented similarly to the regular college curriculum, credit being given for the work done. If you are enrolled in the college, you may derive your hours from these courses, provided that your schedule of hours doesn't exceed 18. It is also open to people not enrolled in college.

Aside from the college credit, a certificate from the University of Tennessee College of Engineering is presented upon completion of the prescribed work. Each of these classes still has a few openings, and these should be filled immediately. There is no charge for these courses, being furnished by the government. If you feel that you are interested you may obtain additional information from Mr. Freeman, instructor of Manual Arts and Mechanical Drawing.

It is also a good opportunity for boys and men entering the service, as it fits them for a sergeant's rating, if they complete the course.

Q. M. Smith Heads Navy Air Committee

President Q. M. Smith of Tennessee State College is Rutherford County chairman of the committee to promote enlistment in the Naval Air Corps.

Sub-chairmen under him have been appointed as follows: Murfreesboro, J. C. Mitchell, P. C. Shelton, and N. C. Maney; Readyville, Raymond Youree; Rockvale, John S. Smith; Eagleville, J. W. Wheeler; Christiana, R. E. Jones; Lascassas, Preston Cason; Walter Hill, Clarence Terry; Smyrna, W. F. Bennett.

Maney is a Navy lieutenant on active duty at Annapolis. His successor to the committee has not been named.

Blue Raiders Elect Heads For '42 Season

In a meeting held Tuesday afternoon following practise Emory Davenport was elected captain of the Blue Raiders for the coming year. Bill Burkett was elected as alternate captain.

Emory or "Duffy" is from Nashville Tennessee. He has performed at many positions since becoming a Blue Raider. This year he is playing center and playing it very well.

The elected alternate captain, Bill Burkett is from Watertown, Tenn. Fans will remember him well for his passing feats of last year. Great things are expected of "Little Willie" this year.

Best of luck this year Captains Davenport and Burkett!

Captain William Arbuckle, first white man to cross the Kanawha Valley, reached the site of Point Pleasant in the year 1764.

Hail T.S.C. All Hail Noble And Strong

Hail T. S. C. All hail
Noble and strong
To thee with one accord
We raise our song
Swelling to Heavens high
Our praises ring
Hail T. S. C., All hail to thee
We sing.

Save A Place For Social Life, Urge Student Heads

The Associated Student Body heads for the new school year are Jimmy Jackson, president, of Nashville; and Miss Frances Walker, vice-president of Dreaksboro, Ky.

In his welcoming statements to the freshmen, Jackson said, "You have fortunately chosen an institution, which with your best efforts can mold and construct your personality to a degree of eminence."

He continued his guiding statements, as the age-old custom of the new student head:

"You now have chosen a somewhat new and different life from what you have been accustomed to in your home town and in your high school. Some of you are probably strangers to the majority of the students already on the campus but we upper-classmen promise you that you will not remain so for an extended period."

"Your first and major problem here is to select your field. This

is of utmost importance because here your foundation rests and simple but wise applications on this edifice is the basis of construction on which you shall endeavor to make your life's work. So apply yourself with a sense of integrity and sincerity and a wholesome life is inevitable.

"Let not your first impressions be lasting ones here, because until you are here and live with these people, only then will you really know them and their ways."

"So here we extend to all of you freshmen a most hearty welcome and hope that your days here will be profitable educationally and enjoyable socially."

"The regular curriculum should come first, but also on your program should be reserved a large space for social activities. Combine them to make your college life one of your biggest and most valuable experiences."

Frank Bass Gets S.I.A.A. Appointment

Frank Bass, director of the Training School, has been appointed vice-president of the Southern Intercollegiate Athletic association, succeeding R. W. Johnson of Memphis State who is now in the armed services.

The appointment was announced by H. E. Sturgeon, of Presbyterian College Clinton, S. C., president of the association.

All questions of eligibility, and eligibility lists in the S.I.A.A., will be referred to Mr. Bass in his new position.

Library Outlined For Freshmen

Library Hours; Interior Arrangement Guide New Students

Since most of the knowledge and information to be acquired by the college student must be obtained from books, it is necessary for the student, at the very beginning of his college course, to become acquainted with the organization and arrangement of the material in the library. To assist the beginning students in becoming familiar with the library the following brief outline is given. This outline is followed by a list of books that have been selected to meet the needs and interests of the student just entering college.

During the college year the library is open daily, except Sunday, from 8 a.m. to 5 p.m. to 9 p.m. The library is closed on holidays and on stated occasions.

The main entrance on the north side of the building is the only entrance used. This entrance leads directly into the main reading room where reference books are arranged on shelves according to their classification numbers.

Directly in front of the main entrance across the lobby is the charging desk where all material must be signed for before it is taken from the library. The only entrance to the remainder of the library is by the charging desk.

Behind the charging desk are the stacks where are shelved the main body of the books in the library. These books are arranged on the shelves from left to right according to their classification numbers. Fiction is marked with an "F" and biography with "B". The stacks are open to the students.

On the east side of the building is a room which contains certain bibliographical tools. This room may also be used as a conference room. On the west side is a room (Continued on Page Four)

Secretary of Agriculture Wickard says that the current shortage of meat is due to unusually large demands for Lend-Lease, our armed forces, and increased domestic buying power. He says that marked improvement may be expected about the last of September when this year's large crop of spring pigs and the range cattle start moving to market.

Army cooks have been experimenting with tomato bread—adding tomato juice or canned tomatoes to the dough to increase the vitamin A and C content.

One tractor, under 30 hp. equals 10 37-mm tank guns.

New Faces Greet TSC Students As Faculty Changes

Cheek, Mebane, Jordan, And Tarpley Answer Call To Service

Because of vacancies created by persons who have gone into the armed services and other jobs, new members have been added to the faculty of Tennessee State College here, and there has been some reassignment of duties, President Q. M. Smith said yesterday.

Five members of last year's faculty are now in the armed services. They are James Lokey, Training School teacher, (now a Naval Training school instructor; Dr. Philip Cheek, foreign languages, now a selectee; Dr. W. M. Mebane, physics, now a lieutenant in the Navy; Edward L. Tarpley, public health, now a Navy ensign; and Nance Jordan, physical training, now a Navy lieutenant (jg).

Miss Dorothy Duckworth of Ames, Iowa will succeed Miss Carrie Hodges as head of the Home Economics Department. Miss Duckworth has the B. S., Degree from Iowa State College and the M. S., Degree from Iowa University.

Mr. and Mrs. George L. Bock have been employed as managers of the Cafeteria and College Lunch Room to succeed Charles L. Calhoun who resigned to accept a position as principal of the high school at Whiteville.

Clayton L. James, A. B., M. A., has been appointed director of student personnel and guidance.

Dr. Edward B. Baldwin, A. B., M. A., Ph.D. has been made Associate Professor of Geography and Meteorology. Mr. Baldwin received the Ph.D. degree from Peabody College in June.

H. G. Jones, B. S., M. A., has been appointed coordinator of Civilian Pilot Training and instructor (Continued on Page Four)

Shearron President Of Blue Raiders

To Promote College Athletics; Service Men Admitted Free

The Blue Raider Association, organization of Murfreesboro business men which helps to promote athletics at Tennessee State College here, will begin its annual sale of season tickets in a few days, Ticket Chairman T. T. Martin has announced.

The association last Friday elec-

TWO KINDS OF TICKETS

There'll be at least two kinds of tickets to the Tennessee State College football games this fall.

The printed tickets will be one kind. Uniforms will be another.

Frank Bass, director of athletics for the college, said yesterday that it had been decided to admit service men free to all games.

All they have to do is present themselves in uniform, soldiers, sailors and marines.

ted Gilbert Shearron of Bell Bros. Lumber Company as president, and Larry Miller, of the Mid-South Publishing Company, as secretary-treasurer.

The advisory committee is composed of W. B. Judd and Frank Bass of the T. S. C. faculty, Coach Wink Midgett of the college, F. M. Kirkpatrick, manager of the Woolworth Store here, and Joe Wolfe, manager of Davis store.

Martin said that membership in the association would cost \$10, and that this would include two season tickets for all athletic contests at the college this year, including football, basketball and baseball.

Martin said there would be four varsity home games, and five games played by the junior team representing the college Training School. This will give at least one football game each week during the season, he said.

The association starts the new year with a treasury balance of \$265.60 left from last year, when there were 83 members.

In the American Revolution no state sent more men to the east under Washington or more valiantly defended the "back door" of the U. S. than did West Virginia.

The Mineral Springs at White Sulphur and Greenbriar County are world famous.

Past Editors, Athletes And Girls, Boost State's Contributions Toward War Effort

Tennessee State College students will be interested to know that an alumni, a member of the class of '38, Edward L. Jennings has recently been commissioned an Ensign in the United States Reserve.

He reported for active duty at Newport, Rhode Island on September 9.

John Bragg, former Sidelines Editor and basketball star, has been assigned to the Army Air Corps and is now undergoing training at Atlantic City, N. J. Bragg was inducted into service in August. His address is Flight F, Room 765, 563rd T. S. S., Atlantic City.

James C. Kennon, son of Mrs. Katie C. Kennon of Nashville, was

recently appointed Naval Aviation Cadet and was transferred to the Naval Aviation Station, at Pensacola, Fla., for flight training.

Kennon received his B. S. degree from State Teachers College where he was on the varsity football team. He was also editor of the Sidelines.

Prior to reporting to the Naval Reserve Aviation Base at New Orleans, Kennon served seven months with the U. S. Naval Reserve.

Roger Smith of Overall is a member of the class of '42 is to leave for officers training school of the United States Marine Corp Reserve in the near future. Smith is at present waiting for orders to report. Upper classmen will remember

Enrollment Decrease Expected As State Opens; Fundamentals Stressed For Crisis By Smith

War Program Emphasized In Prexy's Welcome

English, Math, Physical Development, Industrial Art, Physics, Commerce To Be Stressed

"Make out a balanced daily program for health, work, and recreation and follow it," advises Q. M. Smith, President of Tennessee State, to the incoming freshmen and new students.

Continues Smith, "It is important that students emphasize the fundamentals in education especially English, Physics, Mathematics, Industrial Arts, and Commerce. Other subjects are just as important as ever but these subjects are basic to the war program."

"Physical development and physical fitness should be attained and sustained with care and diligence."

"Habitual thoroughness and accuracy are educational qualities that should be acquired by systematic effort."

"Promptness and courtesy in carrying out instructions and all assignments should be practiced."

"Reasonable participation in student activities is encouraged to cultivate the social graces and the intellectual and physical qualities essential to a strong personality."

"Cooperate in conserving and improving school property. Cultivate the habit of saving light, water, heat, food, instructional supplies and equipment, and operational supplies."

"Resolve to understand and fully appreciate the great principles upon which this college was created; to become a part of its tradition; to love and cherish the spirit that has prompted hundreds of its students to pay their last full measure of devotion to defend its ideals."

"Our country's cause is our cause. We are here to learn to serve that cause. If those who have gone before us are willing to give so much we will not fail them. All we have is not too little and now is never too late."

T.S.C. President Is Coordinator

Elected By Civic Leaders To Non-Compensatory Post

Q. M. Smith, president of Tennessee State College, is the new Rutherford County Civilian Defense coordinator.

James A. Ridley, chairman of the Rutherford County Defense Council, announced yesterday that Smith had accepted appointment to be coordinator.

Smith succeeds Ed G. Spears, who resigned to accept a position as representative of a Nashville box company.

Smith, Ridley emphasized, will serve without compensation. A meeting of local civic leaders and officials is expected to be called in a few days for the purpose of organizing a Citizen's Service Corps.

The Citizen's Service Corps is an organization to coordinate all war-related efforts and avoid duplication of effort.

Planned Program Announced For New Students

Uncertain World Situation Decreases Enrollment, Smith Speaks Tuesday

A decided decrease in enrollment at Tennessee State College is expected as the institution opens its doors for the customary preliminary orientation period devoted to the incoming freshmen class, Tuesday morning, September 15, according to a statement by Dean N. C. Beasley.

Dean Beasley states that due to the uncertainty of the world situation it is hard to make an estimate concerning the expected enrollment, but it expected not to lag very far behind last year's figure.

An important factor in this year's enrollment according to the Dean is the opportunity for the men to get in the Reserves of the Army and Navy. Practically all the T. S. C. men are in either the Army or Naval Reserve.

A special orientation program for Freshmen will begin promptly at 8:30 Tuesday morning. The purpose of this session, which will continue throughout the day, with a short intermission for lunch, is to assist a group of students in selecting the course and in becoming acquainted with the government and organization of the college.

High points in the morning meeting will include a speech of welcome by President Q. M. Smith and group conferences of all students to clarify the instructions given them earlier in the morning concerning the department objectives and various courses of study; these conferences will be under the direction of members of the faculty, and will also furnish guidance in registration.

During the afternoon freshmen registration in the various conference rooms will continue. A freshman party in the gym will bring the days festivities to an end. Varied games and dancing will be the order of the night and all students are given an opportunity to become acquainted.

Wednesday morning, September 16, will be devoted to general consideration of students aims and objectives, adaption to college and to student activities.

All upperclassmen will register Wednesday, September 16, and freshman registration will be completed. Continuation of the freshman program, Thursday morning, September 17, from 8:15 to 12:00 will be devoted to giving psychological tests and achievement tests to all new students. This part of the program is required of all the new students and will be under the direction of Dr. J. C. Waller.

Classes for upperclassmen will begin Thursday morning.

Bock's In Charge Of TSC Cafeteria

There has been many a happy comment over the improved training table set-up. The boys all seem happy over the food that Mr. and Mrs. G. I. Bock, formerly operators of the Bock Tea Room, are passing out, as dietitians of the TSC cafeteria.

Mr. Bock has served the students here for the last 16 years, through the good food always found at his Tea Room. Now, President Smith has again displayed unequalled intelligence and concern over the students by obtaining Mr. and Mrs. Bock to handle the campus cafeteria.

The experience which the Bocks have had in dealing with college students is standing them in good stead, and the entire student body seems destined to enjoy better food and therefore, better living. Keep it up, Mr. B.

When U. S. Marines were being sought for duty on American ships in 1797, Secretary of War James McHenry ordered uniforms of long blue coats, red vests and blue breeches.

West Virginia ranks second for mineral production in the United States, chief products being coal and petroleum.

THE SIDE-LINES

My Appeal To You

The Side-Lines as a publication of Tennessee State College has been in the past one of highest quality. Certainly it is my desire that the publication of the Side-Lines this year may be able to maintain its past high standards.

On assuming editorship of the Side-Lines, I realize full well my responsibility. The Side-Lines should serve as a medium of expressing the ideas and opinions of both student body and faculty of Tennessee State College. As editor therefore I have an obligation not only to the student body but also to the faculty, and especially to the school itself. As editor I must try to keep the student informed as to the event of the student; of the faculty; I must through well organized publicity strive to present a better picture of the school to the general public.

A successful year for any school is the hope of everyone connected with it at its opening. As the year progresses usually some few lose sight of that goal of success and begin to slack up in their interest. With such times as these certainly there should be no slackers this year. Every opportunity should be pressed for its full value. This should be done not only by the faculty but also the student body.

In closing I wish to extend to the new students a most hearty welcome for the entire Side-Lines staff.

Side-Lines Objectives

Certainly a publication of any school should have but one definite goal and that goal should be the betterment of the school which through its publication represents. With this thought in mind the Side-Lines of this year has the following objectives.

HIGHER SCHOLASTIC STANDARDS—A college is supposed to be an institution of higher learning. Students who attend Tennessee State are supposedly seeking knowledge and the ability to better their economic standards upon leaving college. It is for this reason that we say don't put all your time on your books but at least leave college with the knowledge that you have spent four years of your life and a sizeable sum of money, and have gotten something in return for the investment.

PARTICIPATION BY ALL STUDENTS IN SCHOOL PROGRAM—Tennessee State has a reputation for the friendliness of its students. There is no reason for a single student not entering into everything for which the student body is called with the utmost vigor. If you are not the best dancer in the world, if you get scared in a crowd, if you don't enjoy other people, don't let it bother you, kick right into the midst of the fray and you will find other students who are, or have been, in your boat and all will be glad to help you.

INCREASED LOYALTY—The advancement of

any school whether on the athletic field or elsewhere depends upon the loyalty and support of its students and faculty. Our hope is that every student and every faculty member shall give their full loyalty and support to every undertaking of Tennessee State.

INCREASE IN CHURCH ATTENDANCE—Jew, Catholic or Protestant, you should belong and attend some religious institution each week.

COURTESY TO MEN IN UNIFORM—Keep in mind the fact that you may be in the service some day and after all, a soldier is wearing the uniform of his country, and that may be more than you are doing for it.

STIMULATION OF STUDENT THOUGHT—Through the use of a student forum the Side-Lines hopes that the students of Tennessee State College will learn to express themselves and to give expression to their thoughts and ideas. A forum is not meant to be merely a gripe column! Remember that it is a place for intelligent discussion of the problems that confront the students and faculty of the school.

ORDERLY LIBRARY—We have a fine library and hope that in the future the students will cooperate in making it even better. Remember that the library is a place for study, if you want to play, go somewhere else. New students are reminded that quiet is the rule at all times in the library and other actions are sure to disturb others.

ADVANCEMENT OF THE ASSOCIATED STUDENT BODY—To learn to live better in a democratic world it is good for the students of an education institution to learn to govern themselves. In his way they learn to become better citizens. And every opportunity support the A.S.B.

A fellow we know says his wife has been after him to buy a new radio, but he says he can listen to about all the advertising he wants to hear on his old one.

A remarkable thing about money is that it sometimes makes fools of great people, while in other instances it makes great people of fools.

Of course, names don't mean very much. We recently read about a man in another part of the country named Snail being arrested for speeding.

A writer says that women are more fascinated by horrors than men. Not only that—they buy 'em and wear 'em for hats.

You can take a man out of the country, but you can't keep him from jumping in his car and rushing to a fire every time the alarm is sounded.

Few of us, when we get right down to the facts, are opposed to a little dictating, providing we're the ones doing it.

A cute New York model says American soldiers aren't in the kissing mood. But maybe you'd better ask some of the girls around here.

Congress should bear in mind that the Japs and Germans don't wait to ask an American soldier, sailor or marine whether he's a Democrat or Republican before taking a shot at him.

A news item says more of the length is going to have to come out of dresses—leaving, of course, without particularly worrying us, less of the woman in them.

We electrocuted six Germans for planning to commit sabotage in this country. So far, Nicholas Zonarich, head of the C. I. O. Aluminum Workers, hasn't even been arrested.

By BURTON NELSON

Ho Hum, you students; get rid of the lackadaisical summer attitude! This is Fall, and that means FOOTBALL!!!

Maybe you don't agree, but to me, it is a good feeling to be back. I only hope that all you incoming Freshmen get adjusted so that you can reap the full benefit from your stay here.

Now comes the time to extend a sincere and a hearty welcome to all you frosh, and to you returning students. It's good to see you back.

There's one thing that I'm hoping this year, and that is that all of us will help make 1942 the best year that T.S.C. has ever had. The job is up to us, and it will be more difficult than in the past because of the reduced enrollment. However, one thing will aid us tremendously, and this is Cooperation.

If we will all cooperate in all the school's undertakings, each individual as well as the school will benefit. That brings me to one phase I'm particularly interested in, and this is School Spirit. School Spirit is Cooperation, for you can't have one without the other.

Naturally, one branch of school spirit is supporting your sports program. The football team is YOUR TEAM, and no one else's. Let's let them know it by giving them our support at every game, or at any other time we can.

About 22 boys are a week ahead of us on this school year, as these are the boys composing our '42 Blue Raiders Squad. Boasting of only 7 returning lettermen, the Raiders nevertheless, intend to produce a formidable club.

BUY DEFENSE STAMPS BONDS

KEEP 'EM FLYING

Coaches Midgett and Freeman aren't blessed with an over-abundance of talent, but you cantake my word for it, the brand offotball the Blue Raiders will play will be interesting and spectacular.

After watching them practice for two days, I believe they are the most enthusiastic and best conditioned squad I've ever seen here at this early a date, and take it from me, I've seen quite a few squads come and go.

Daffey Davenport, Bill and Bob Burkett, Tom Suddarth, Andy Brooks, Whitcher Phillips, and Hunter Reasonover are the returning lettermen, with several goodlooking newcomers. Thumbnail sketches of all the candidates are on this page elsewhere.

It is too early in the season to start any predictions, but I'll stick my neck out with a vague prognostication. My guess is that the starting lineup will be composed of 1 senior, 4 juniors, 3 sophomores, and 3 frosh. After the first game, you may feel free to come around and tell me how wrong I am. I'm used to it.

The Raiders are confronted with the same problem this year as last, that is, opening the season with a tough foe. Last year it was Western Ky. This year it is Memphis State. Incidentally, in every game but one, the proteges of Coaches Midgett and Freeman will be the underdog, ruling as the favorite in only the Troy Alabama game, according to preseason dope. It looks to me as if some highly touted foes are in for an unexpected defeat.

In closing this inconsequential sojourn into the realm of Blue Raider athletics, I want to repeat that I hope we of the student body will show the team as much spirit as they themselves have, and folks, that will be enough, because these boys are sething with it.

Introducing... Coaches Midgett And Freeman

E. W. "WINK" MIDGETT

O. L. "NOOBEY" FREEMAN

For the benefit of you incoming Frosh and Transfers, Coach E. W. "Wink" Midgett is a graduate of T. P. L. class of '33, and was mentioned as the most outstanding student ever to leave it. He was a straight "A" student, as well as being listed as one of the best football players in the SIAA. To top this, his basketball performances excelled his gridiron exploits. He is one of the smartest coaches in the SIAA, never lacking when it comes to deception in plays.

Coach O. L. "Noobey" Freeman graduated from T. S. C. and was also an outstanding performer. He finished in 1928, and did graduate work at Iowa State College, getting his M. S. in 1933. He has been here since then, and capably handles the linemen for the Blue Raiders. He has developed many outstanding linemen, instilling them with the fundamentals required to make good men. Coach Freeman collaborates with Coach Midgett on the plays given the teams, and deserves recognition for the faithful service he is rendering.

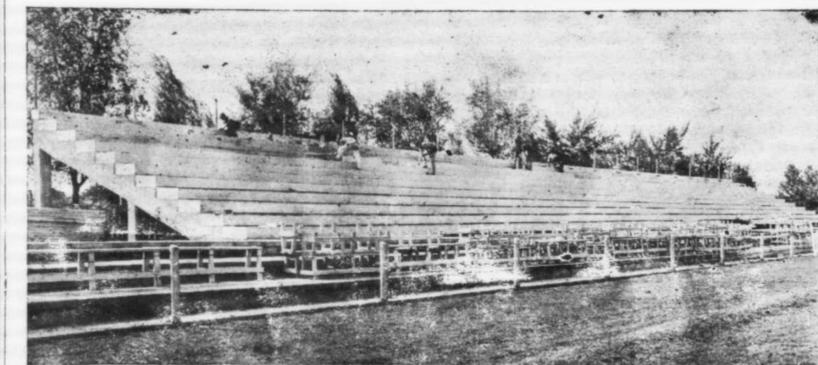

This country is using corn faster than it is growing it. Production of 200 million bushels less than last year is indicated by the July 1 crop report. Indications are that we will feed 100 million bushels more in the year beginning October 1 than we are feeding this year. This means we will use about 300 million bushels more in 1942-43 than we are producing this year. To offset this drain on corn supply the Government is urging extensive use of wheat as feed.

U. S. Marines were aboard vessels of the Navy in 1908 when the fleet sailed into the harbor of Auckland, New Zealand.

'42 Raiders Face Tough Schedule; Small Squad Opens In Memphis

Thumbnail Sketches Of Blue Raiders

By Greer Wiggins

James Andrew Brooks: better known as Andy, "Momma Bear", or "Laundry Man". Andy hails from Brigeport, Ala., a junior with two years of regular duty in college football at T. S. C. He is slated for tackle, weighing in at a flat 200.

William Burkett: Bill to everyone, and "Little Bannan" to some. Bill is a junior, operating from tailback. A passing demon, from Watertown, via Castle Heights, Bill is headed for more varied service this season. "Little Bannan" weighs a mere 140, but last year was worth his weight in points.

Bob P. Burkett: Just plain Bob, he is the second of the Burkett trio. Bob is at wing back, and with Brother Bill, forms the nucleus of the backfield. He tips the scales at 180, and is fast with it. Bob is a sophomore, with a year's varsity experience, and will be in the role of a hard driving back, as well as doing most of the kicking.

Emery Davenport: "Daffy", "Fat Boo" are his other names, but don't let them fool you. Daffy weighs a good 200, and is a senior from Central High in Nashville. Daffy has been playing end for the last 3 years, but has been converted to center this season, and is due to make the opposition suffer.

Charles Phillips: "Whitcher" to you, is another Watertown Alumnus, and is a junior end. With glue fingers, Whitcher should go far this year, with two Burketts slinging as well as being capable of more than taking care of his share of the defense. At 160 pounds, he is settled down for his best year.

Hunter Reasonover: "Jungleface" or "Reege", as the boys call him, is a sophomore from Lebanon. He plays guard, being a regular last season, and is 180 pounds of dynamite. Hunter is as tough as they come, and is no slouch when it comes to putting out on the gridiron.

Tom Suddarth: Call him "Big T", "High Pockets", or "Long Boy", he will still play the H—ll out of tackle, if he wants to. Another Sophomore, Big T, is a son of Gallatin, weighing in at 195. Only 6' 5", Tom should be headed for a great season, to the sorrow of opposing linemen.

Raleigh Brown: A junior from Murfreesboro, Rol is trying his hand at college football for the first time. A good performer in high school, Rol is battling hard for a starting berth at guard. At 170, Rol stands a mighty fine chance of making someone pay, if they happen to get in his way.

Charles Chitwood: Charley calls Red Boiling Springs his home. He is another new candidate, with plenty of promise. After he acquires a little seasoning, Charley's 185 pounds will enable him to press

Five tractors, over 30 hp. equal one medium tank. One disc harrow equals 10 anti-aircraft directors.

Tennessee canneries certified by the USDA War Board to can tomatoes for the Government have estimated the 1942 pack at 1,468,600 cases. The pack this year is to be more than twice as large as the 664,600 cases canned in 1940. The acreage, too, has been almost doubled, with 7,641 acres in 1940 and 14,383 acres this year. The output of canned peas for the Government is expected to reach 205,000 cases this year as compared with 170,785 cases in 1940.

Two 2-disc tractor plows equal one 75-mm. tank gun.

the regular guards for service. He is a junior, and will see quite a bit of service, we imagine.

James Butler Lane: Jim Butler, J. B., or Jim., he answers to them all. Jim is a junior from Murfreesboro, and while he doesn't weigh but 150, he runs as blocking back, and I do mean BLOCKING. Warning: Don't let his size give you any foolish ideas about getting in his way!

James Simpson: "Simp" for short, he is a basketball major from Loretta, but hopes to play more than a minor role on the gridiron this year. An end, Simp has pass catching ability, regardless of his light 140 pounds. Jim is a sophomore, this being his first year out for football.

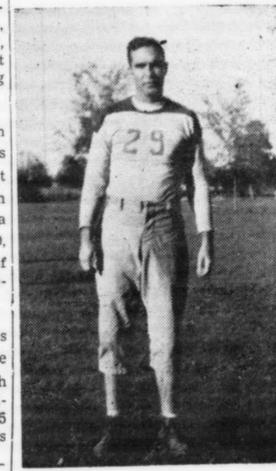

Marcus "Bing" Charles: "Feroocious Marcogious" is a recruit from the student body. He is a junior from Murfreesboro and is trying for backfield service. He weighs around 150, and though he lacks experience, should make a good man to have around.

Laddie Monte Royster: Laddie, "the Lad", is a junior from McMinnville, out for end position. He weighs 140, and is a little man with big ideas, having plenty of what it takes in the way of intestinal fortitude.

Herman Lassiter: Just call him "Itchy", he is a freshman from East High in Nashville, tips the Toledos at 165, and is a blocking back. One of the best frosh candidates, and a likeable boy. Hope he lives up to expectations, and if he does, we'll all be hearing of him before the year is over.

William Gresham Blackman: Oh, you mean Bill, Bill who is well known around these parts, playing a lot of ball at Central here, and also at Morgan Prep, at Petersburg. Bill is a friendly boy, and is nice to know, especially when you need

"River" Jordan, Former Coach In Naval Reserve

"RIVER" JORDAN

Nance Jordan, Lieut. Jr. Grade, USNR, former intramural director and assistant Coach at TSC, is now stationed in Oklahoma, at a Naval Air Station there.

Lieut. Jordan joined the Naval Reserve early this past summer, first going to Norfolk, Va. He is directly under Fred Hamilton, director of the advanced Naval Physical Education Program.

Lieut. Jordan, while at TSC, revised and installed the intramural set-up now in effect, and had planned to further it considerably.

Ten grain drills equal one light tank.

One hand cornsheller equals three 6 inch shells.

a good back. He is another frosh, and weighs close to 180.

Robert "Lefty" Johnson: Lefty is a yearling from Nashville Central High, and is an end, weighing 165. This forkhander is a promising prospect, with a pleasing personality. You will get to know him as the year progresses.

Grady Cornwell: Grady played high school ball at Isaac Litton under 4 ex-luminaries of T. S. C., namely, Charlie Miller, Jaybird Hamblin, Bill "Ug" McCrory, and Carl "Cookie" Yates, so he has some idea of what football amounts to here. He is classified as a frosh and weighs 170. He has a nice record, and should show us something.

George Fisher: George is from Greenbrier, where he played last season. Call him "Molasses", because that ball sure sticks to his fingers. He works from the end slot, and his 6 foot frame carries about 155 pounds. Watch for him in the future, both on the field, and in college life.

Jack Yearwood: Jack is a first year man weighing 160, playing guard. He saw service at Isaac Litton last year at center. He is a very cooperative lad and should prove valuable. Jack is a hard worker and is willing to put his shoulder to the wheel.

Wilburn Burkett: Last but not the least of the Burkett trio. (Watch him, Little Bannan). He is a tailback, and hails from Watertown. He weighs 150, and like Brother Bill, can really sling the pigskin around. He should be valuable in helping Bill take care of the tailback slot.

Glen Kinnard: Glen is from Columbia, and is a candidate for the backfield. Kinnard is a frosh, weighing 150, and is a likeable fellow who doesn't mind hard work, and keep 'em smiling. He should see service.

Homer Evans: Homer is a nice size prospect from Bridgeport, Ala. He weighs 175, and plays center. A quiet boy, he seems headed for service the coming season. You'll see him on the field quite a bit.

Billy Cartright, more commonly known as "Ironhead", is one of the few returning lettermen. This Shelbyville lad will be counted on for much service this year at the tackle position where he was outstanding last year.

Reese Smith is another freshman who has yet to be tested under fire. From all indications this former Hillsboro High star, who performs at tackle will see plenty of service.

Sam Ross, a first year man, hails from Watertown, the home of so many Raider stars. Sam although a little man, is fully capable of taking care of himself in the backfield.

Coaches Have Back To Wall In Building Raiders

The 1942 edition of the Blue Raiders of Tennessee State College will soon be on the gridiron, with prospects for the coming season not so rosy.

Coach "Wink" Midgett has made no statement as to what he expects, but he and Coach Freeman are handicapped by the lack of candidates, and the lack of experience from the men they have. Only 8 men on the present squad have ever participated in a college game, but the possibility of the addition of one or two of last years performers is strong.

At the present time, the line is being built around Daffey Davenport, a converted end who is now favoring at center. He is flanked by one experienced guard, Hunter Reasonover, two tackles of service, Tom Suddarth and Andy Brooks, and Whitcher Phillips, a returning letterman at end. The other line positions will have to be filled by inexperienced men.

In the backfield Bill and Bob Burkett are the only two holdovers, with Bill in the tailback slot, and Bob handling wingback duties. The other two positions will be filled by totally unseasoned backs, with replacements being even more critical.

Despite this gloomy picture, the coaches seem elated over the fine spirit and condition their tiny squad has displayed so far. The team this year seems destined to present a potent aerial attack, with two fine passers in Bill and Wilburn Burkett. With these two going to Whitcher Phillips, George Fisher, Grady Cornwell, Lefty Johnson, and a couple of more glue fingered pass receivers, coupled with the fine repertoire of plays the Coaches are giving them, the passing power of the Raiders will be a constant threat.

On the defensive side, nothing definite can be stated, as there has been no way to test their defensive power. However, if the desire and fight of the players can be classed as a deciding factor, the outlook is good on that score.

The schedule this year presents 3 open dates, but it is hoped that two of these may be filled with service games. The opener is a tough one, being with Memphis State at Memphis, on Sept. 22. It is hoped that this game will be changed to a later day in the week so that it won't come in the middle of that week.

The last game is the time that we plug the feathers of the T. P. I. eagle coming on our home field, on Thanksgiving, Nov. 26.

A complete schedule, as it now stands, follows:

- Sept. 22 Memphis State, there
- Oct. 2 Troy Ala. home;
- Oct. 9, open
- Oct. 16, open
- Oct. 22, Maryville, home;
- Oct. 31, U. of Tampa, there;
- Nov. 6, open
- Nov. 13, Murray, Ky., home;
- Nov. 26, T. P. I., home(coming).

Nation's Food Production Now Highest On Record

As the United Nations face their greatest need for food in history, it appears likely this country's 1942 food production will be 9 per cent greater than ever before, 25 per cent more than the average for 1935-39. This year's production represents more than an all-time high; it represents one of the greatest increases in food output ever achieved by the American farmer from one year to the next.

Total 1942 farm production, including all agricultural products, such as oil and fibers, is also expected to be 9 per cent greater than last year. Thus in one year agricultural output is rising faster than it did during the entire World War I period, 1914-18, when the total advance was less than 5 per cent.

Mary Jane Stem Is Bride Of Earl Spry

Dr. and Mrs. C. R. Stem of Eagleville announce the marriage of their daughter, Mary Jane, to Earl E. Spry, son of Mr. and Mrs. George Spry, of Nashville. The ceremony was solemnized September 2, at the Army Base Chapel, in Tampa, Fla., with Chaplain Carl Hewlett officiating.

Following the ceremony Mr. and Mrs. Spry remained in Tampa for a few days, after which the bride returned to Nashville to continue her work at Vanderbilt University School of Nursing, and the bridegroom returned to his Army post.

Mrs. Spry attended State Teachers College in Murfreesboro and received her B. S. degree from Vanderbilt University School of Nursing. She will receive her R. N. degree in October. She is a member of the American Red Cross Student Reserve.

Mr. Spry received his B. S. degree from Tennessee State college in Murfreesboro and is now stationed with the Weather Squadron of the United States Army Air Corps at Drew field, Fla.

Miss Todd Bride Of L. Ewin Earls

Miss Mary Cleo Todd, daughter of Mr. and Mrs. Gran Todd of Big Springs, became the bride of L. Ewin Earls, son of Mr. and Mrs. L. W. Earles of Murfreesboro, in a ceremony which took place August 29 in Rossville, Ga.

The bride attended Buchanan high school and the bridegroom attended Kittrell high school and Tennessee State college.

Mr. Earles holds a Civil Service position in Seattle, Washington, where the bride will join him in about three weeks.

Week Of The War:

2½ Pounds Meat A Week Is Recommended Ration

The War Production Board released 50,000 of the refrigerators which have been frozen in the hands of dealers and distributors since February 14 for sale to the general public after finding that they were not needed for "essential" purposes.

RATIONING

Another 50,000 will be released by authorization of WPB for delivery to dealers and transfer to ultimate consumers.

The WPB Food Requirements Committee recommended to the War Production Board the following meat conservation program— (1) limitation of the amounts of meat packers may sell to the civilian trade so that each civilian will be able to buy 2½ pounds a week; (2) direct consumer rationing to be started as soon as possible—in about four months; (3) an interim voluntary conservation program.

PURCHASE OF WAR BONDS

The Treasury Department announced sales of War Bonds in August totaled \$697,255,000 in Bonds through the ten per cent payroll savings plan, compared with 18,000,000 persons and \$200,000,000 in July. Treasury Secretary Morgenthau announced State War Bond quotas for September, totaling \$775,000,000 for the country.

COST OF LIVING

President Roosevelt asked Congress to enact by October 1 legislation under which he would be "specifically authorized to stabilize the cost of living, including the price of all farm commodities."

In a special message to the legislators, the President said "inaction on your part by that date will leave me with an inescapable responsibility to the people of this country to see to it that the war effort is no longer imperiled by threat of economic chaos. In the event that the Congress should fail to act, and act adequately, I shall accept the responsibility, and I will act."

Mr. Roosevelt said the purpose of the legislation "should be to hold farm prices at parity, or at levels of a recent date, whichever is higher." He said "at the same time that farm prices are stabilized, wages can and will be stabilized also. This I will do."

THE WAR FRONT

After ten straight raids without a loss, two U. S. Flying Fortress bombers were reported missing on September 7, following the greatest American aerial attack of the war on Nazi-occupied France. In the raids the fortresses destroyed five enemy fighters and probably destroyed 13 more, and damaged another 25. The bombers were escorted by 400 Allied fighters, three of which were shot down.

Gen. MacArthur's Australian headquarters reported September 7 that heavy Allied bombing planes attacked a Japanese cargo ship southeast of New Guinea which was believed to have been attempting to supply the trapped enemy forces in the Milne Bay area. Australians were mopping up the remnants of Japanese forces in this area. U. S. Army Air Forces in China, continuing their offensive, scored a direct hit on Japanese military headquarters in Nanchang, sank at least seven steamers, blasted a railway station and warehouse and strafed a troop train.

Two Navy vessels, the destroyer Blue and the auxiliary transport Calhoun, have been lost in action in the South Pacific in the past two weeks, the Navy announced. There were few casualties. The Navy also announced the sinking of nine more United Nations merchant vessels by enemy submarines in the Atlantic.

WAR AIMS

President Roosevelt, in an address broadcast to an International Student Assembly in Washington and short-waved to other parts of the world, stated the war is "going to be long and hard and bitter (but) this time we shall know how to make full use of victory" to build a better world.

He also said the Government will see to it that men returning from the fronts can resume their interrupted careers and education and work is provided for those willing and able to work.

ARMY

Assistant Secretary of War McCloy said that between February 1 and August 30 U. S. Army planes destroyed 234 Japanese planes in the air, compared with American losses of 109.

This record, together with the "Flying Tigers," record of 218 Japanese planes destroyed against 29 American losses, is due mainly to the performance of the P-40 fighters, he said.

The War Department sent 36,000 dependents, allowance checks totaling \$4,500,000 to relatives and dependents of enlisted men in the four lower grades of the service.

Selective Service Headquarters instructed State SS boards to place their calls so that most men right now will come from local boards with the most single men or men with dependents other than wives and children.

TAXATION, PROFITS

The Treasury Department recommended to Congress a reduction in individual income tax exemptions to \$500 for each dependent.

The Treasury also proposed a ten per cent tax on consumer spending and high penalty rates for luxury spending.

At the request of Congress, the Treasury outlined a sales tax levied against the retailer who would pass it on to the consumer.

War expenditures in August were times greater than the amount spent for national defense a year ago.

Income payments to individuals in July were 21 per cent more than July 1941 and were at the record annual rate of \$14 billion a year, the Commerce Department said.

Past Editors . .

(Continued from Page One)

Naval Reserve the first of this month. The four who left are Earl Elliot from Estill Springs, Frank Sheppard from Hartsville, Fenton Warren from Franklin, and Raikes Slinkard of Murfreesboro. This training will lead to commissions in the Naval Reserve for these fellows. And Tennessee State's contribution to the armed forces continues.

Tennessee State not only has made its contribution to the man power but also the woman power of our armed forces. Alma Williams from Thompson Station, Tenn., graduate in the class of '38 was one of the first 1,000 WAVES in the United States. Miss Williams was one of the first sixteen from Tennessee. She is now in school at Smith college, Northampton, Mass. for four months training, prior to receiving a commission in the WAVES.

Cornelia Hoobs from Culleoka, Tenn., a student at Tennessee State college for two years is also one of the first WAVES in Tenn.

Jaybird Hamblen, former Tennessee State athletic, describes navy life in the following letter to Coach Freeman.

July 10, 1942
At Sea

Dear Coach,

Here's one buddy of yours who is miles away from home and none too pleased about it all. The navy is fine, but I'm not one who enjoys being away very much.

The first four days I was on board I suffered from a severe case of sea sickness. I'm on a destroyer and they roll more than any ship in the navy. If you have never been seasick, just be thankful and never seek an opportunity. You have a violent headache and can neither eat nor sleep. At first I was afraid I would die, then I was afraid I wouldn't. Thank goodness I'm over it now.

You should live on a destroyer in a heavy sea. The ship has a roll upward to 50. You can imagine how you would feel walking down a deck which is elevated 30 one way and the next second is 30 the opposite way. Also the ship pitches fore and aft which only adds to your troubles. At night when I sleep, if the sea is rough, I have sides placed on my bunk so I will not roll out. You must sleep flat on your back with your arms and legs extended in a figure X, otherwise you'll roll around like a ball. At the table you must hold your plate or it will slide away.

There is little we can do in the way of recreation. The ship is too small for an athletic contest. I haven't taken any exercise since I came on board. I am gaining weight rapidly as a result, weighing 215 now. When we are in port, which isn't very often, we have nightly movies.

I was told of Jr. Owen and Slip Cornwell. I sure hated to hear about them. Coach, I often wonder just how many of the boys from school will survive this war. They tell me that the destroyer won't last 30 minutes in actual combat, but I don't believe that. In fact, if this one goes down, I'll proceed to wade the Atlantic or Pacific if necessary. Have you heard from any of the other boys?

I suppose the war has affected school in more ways than one. Are you planning to have a football team this fall? I hope so, as I think a good football game will help keep peoples mind off

the war for a while and will give some wholesome relaxation. I sure do miss baseball and football. I'm out of touch with everything. Occasionally I get a chance to see an old N. Y. Times.

I haven't run across any boys from school yet. I hope I can see some soon. I guess you knew Waggoner, Claude, Carroll and I finished our training together. I don't know where they are.

Tell Mrs. Freeman hello. Also give my regards to Dean and Mrs. Beasley, Dr. Sims and Mr. Judd. I would appreciate hearing from you if you ever have the opportunity.

Sincerely yours,
Jaybird

Library . . .

(Continued from Page One)

which contains a collection of books for children. These books may be checked out at the regular loan desk just as other books from the stacks may be.

The periodical department is located in the basement. It contains two rooms. The large rooms on the west end of the floor contains the current numbers of about two hundred magazines arranged alphabetically from left to right on the shelves. On a table in this room is the Reader's Guide to Periodical Literature. This is an index to the material in the bound magazines which are on the shelves.

Across the hall from the room which contains the bound periodicals is a room in which there is an exhibit of free instructional materials. These materials are especially useful to those who are planning to become teachers. These materials are not to be taken from the room, but may be ordered free of charge.

New Faces . . .

(Continued from Page One)

Miss Jean Thackston, B. S., State Teachers College, has been made assistant instructor in typing and secretarial practice in the commerce department.

Mrs. Cliffe A. Daniel of McEwen has been made assistant hostess for Rutledge Hall.

B. B. Gracy, B. S., M. A., has been assigned to instruct classes in physical training for men formerly taught by Jordan.

Miss Ollie Green, B. S., M. A., Ed.M., will teach physics classes formerly taught by Dr. Mebane.

Dr. Charles D. Lewis, A. B., M. A., Ph.D. will teach courses in public health, assisted by Miss Mary Hall B. S., M. A. and Dr. I. B. Black, M. D., in place of Tarpley.

Miss Elizabeth Schardt, B. S., M. A., has returned from a summer spent in Old Mexico. She will assume part of the work of Dr. Check. Miss Schardt will emphasize courses in Spanish and Latin American life.

O. L. Freeman, B. S., M. S., Iowa State College and John C. Wheeler, A. B., B. S., M. S., Georgia School of Technology and University of Pennsylvania will conduct classes for students in defense training in Engineering Drawing.

E. W. Midgett, B. S., M. S., University of Kentucky, will teach defense courses in accounting.

The college is approved and fully accredited by all the military authorities for enlistment in the

Ceilings on wages, salaries and farm products are set up as the answer to creeping inflation which OPA has not been able to stop entirely by its control of merchandise and services.

Talk about drafting 18 and 19-year-old youths is a hot topic. Boys that age probably should count on going into the army sometime around Christmas. Married men with no children will go before then.

MEAT RATIONING

Meat will appear less frequently on our tables, for its rationing is a certainty in the near future. Our total meat supply is the largest on record, but because of the needs of the fighting forces and the distress of our allies, we will run three billion pounds short of giving folks at home all the meat they might want next year.

You can count on two and one-half pounds per person a week. This compares with one pound a week in rationed England. Germans are allowed only 12 ounces a week—the Belgians a mere five ounces.

SEAMEN NEEDED

Registration of former sailors on our merchant vessels begins this week. Seamen and officers who've had previous sea experience are badly needed to man ships today. Carpenters are in great demand. Acute labor shortages are appearing in almost every line of work. Civil Service is asking for men and women who have any skill or training and paying good salaries.

Warning have been issued anew that Southerners face a coal shortage this winter unless they buy coal now.

various military reserve classes, including the Navy V-1, V-3, V-7 etc. and in the Army and Marine Enlisted Reserve Corps.
