EDS and CO-EDS

By LOIS STEDMAN
Pert with personality-plus is efficient Nell Banks, secretary of this year's senior class, and one of the most outstanding students on the MTSC campus.

A graduate of the class of '49 at Woodbury high school, Nell participated in many of the activities during her four years. She was a member of the basketball team, of which she was captain three successive years; placing the all tournament basketball team.

Honors galore were placed on our pretty co-ed's head when she was elected Senior class secretary and president of the Home Economics club at Woodbury. In addition to this, she worked with various other clubs such as the glee club, newspaper staff, and the cheerleading squad.

Our Nell is very sports-minded, as you can tell. Her main interests are in basketball, volleyball, baseball and swimming. Her special hobbies include cooking and sewing, at which she is quite talented.

On entering MTSC in the fall of 1949, Nell became associated with the Home Economics club, the WAA, the Midlander staff, the Methodist Student Union and the Student Christian Union. Later, because of her efforts in becoming a good student, she was elected to the Tau Omicron. Nell has worked diligently and has served as secretary of the Home Economics club; vice president, secretary and treasurer of WAA, sophomore attendant to the football team, vice president of the sophomore class and secretary of the junior and senior classes. In WAA she has earned a pin, a sweater and a letter based upon her fine participation in the intramural sports.

Elected as the most popular girl at MTSC in her sophomore year, Nell is an active member in the Methodist church at Woodbury, where she teaches the Intermediate Sunday School class. Teaching is the ambition of Nell, and she is majoring in home economics with minors in education and social science.

MTSC has been fortunate enough to have Jim Lofton as a student for two years, following his transfer from Vanderbilt University in March 1950. A native of Franklin, Tennessee, Jim has been very active in the organizations of both Vanderbilt and MTSC, as well as Battleground Academy where he attended school for five years.

During the time he spent at the academy, Jim lettered in basketball, football and baseball. His athletic ability led him to be chosen captain of the football team in his senior year, and he was one of the lucky few slated on the all-mid-south team in 1948.

Football dominates the list of special interests in Jim's life with outdoor camping included in his favorite hobbies. In spite of his ambition to become a football coach following graduation, the Marine Corps will claim him for a few years. He completed work for his platoon leaders commission this summer.

A physical education major, Jim is minoring in social science, biology and education. Since coming to MTSC, he has been a member of the Physical Education and T-club, president of the T-club, congressman of the sophomore class, sergeant-at-arms of the Junior class, captain of the year's football team and president of the senior class.

Even though he is constantly participating in extra-curricular activities, Jim is a member of the Church of Christ in Franklin and frequently attends the local church. Jim has stepped into the hearts of all his fellow students just as he entered wholeheartedly into the campus life at MTSC.

Civil Service To Offer Meteorological Exams

The United States Civil Service Commission today announced an examination for Meteorological Aid positions paying from \$2,950 to \$3,410 a year. Most of the positions are in the Weather Bureau and are located in Washington, D. C. and throughout the United States. Some positions will also be filled outside the United States.

A written test will be given; appropriate experience or education is also required.

Full information regarding the requirements, and instructions on applying may be secured at most first- and second-class post offices, of from the United States Civil Service Commission, Washington 25, D. C. Applications must be filed not later than October 21, 1952.

Intramurals

(Continued From Page Three)
members of that team for that year. After you have been assigned to a team, you stay on that team as long as you stay at MTSC.

Because everyone has not as yet signed a card, the teams have not been chosen. Anyone who is a full time student is eligible to play, so please fill out one of these cards. The cards may be obtained from any department head in the Administration Building or from Coach Hayes.

Also, if you would like to have a copy of the rules and regulations, how the point system works, the types of games played, and the prizes given, see Coach Hayes and he will give you a copy of them.

Touch football is the first event that will be getting started in the very near future. Other events will be basket ball, volleyball, table tennis, badminton, and many other competitive sports.

The teams will again use colors as their team names. There will be the White, Blue, Red, Orange, Brown and Black. Each man that takes part will be given points and at the end of the spring quarter trophies will be given to the winning team in each event plus awards to the top ten individual players.

Raiders

(Continued from Page Three)

Quick kicking Bobby Young and straight-a-way punting by Ken Duke gave the Raiders a 37.8 average on five tries with one of Duke's kicks traveling 47 yards to fall dead on the two. Porter kicked nine times for the Eagles for a 35 yard average, one of his kicks moving 55 yards.

The Eagles depended strongly on the passing arm of Charles Porter. Although the Raider defense was leaky only nine of 23 passes were completed for 82 yards while the Raiders capitalized on the six of 12 they completed for 124 yards. On the ground the Raiders moved for 222 yards to Morehead 145.

Garnette Rather ran for 69 yards in the first half but had a net loss of 24 in the last half while Stotser on 13 tries netted 71 yards. Tommy Youree's line play for the Raiders was good while Don Williams, Jim Lincoln and Osteen recovered Eagle fumbles. Gose, Slatery, Thompson and Goble recovered Raider fumbles for the Eagles.

Ed Reed, brilliant Morehead end suffered a broken shoulder on the last play of the game.

Education Persons Have Key Posts in MTEA

Personages prominent in Murfreesboro and Middle Tennessee State College education work occupied key posts in the meeting of the Middle Section Tennessee Education Association meeting in Nashville Friday of last week.

Among the leading educators who spoke was Dr. C. C. Sims, head of the social science division of the college faculty. Dr. Sims spoke to the Social Studies section at two o'clock on the subject of "Getting Out the Vote", with special emphasis on the vote for delegates to the Limited Constitutional Convention and a writer and lecturer of note in this field, Dr. Sims is himself, a candidate for delegate to the Convention from Rutherford county.

Dean N. C. Beasley, who has served the Association for two decades as secretary, was instrumental in providing an outstanding program for the meeting this year, including Jessica Dragonette (for the evening session); Vinivent Sheean, Dr. Martin Klotzsch and a score of other prominent individuals.

Two MTSC faculty members, Mrs. Andrena Crockett Briney and Gene H. Sloan, were chairmen of sectional groups. Mrs. Briney leads the ACE and Mr. Sloan the Social Studies group. Two Central high school faculty members, Joe Van Sickle and Miss Rebecca Clark were chairmen of the music and mathematics sections, respectively.

Other MTSC alumni who were sectional chairman are Miss Nellie Dye, supervisors; Charles F. Adwell, industrial arts and vocational education; Thomas S. Ware, elementary principals; H. H. Turpen, administrative section; Mrs. Clyde F. Richards, library; Walton O. Warden, secondary school principals. A former MTSC faculty member, D. L. Stowe, who is now at Clarksville was president of the science section.

Appearing on programs throughout the day in addition to Dr. Sims were several members of the faculty, including Dr. Howard Kirksey, E. E. Brinkley, Dr. Belt Keathley and Miss Florence Betts. Miss Christine Vaughan, a summer school faculty member, also was on one of the programs.

Alumni from MTSC who were scheduled for appearances on the programs of the day include Congressman Albert Gore, Carmen Campbell of East high school, Nashville; James C. Errantion, Dickson county; Miss Hattie Jenkins, West high school, Nashville; Miss Anna Whitworth, Nashville and Miss Mary T. Jones, Nashville.

Future Games

(Continued from Page Three)

Saltz, playing quarterback this year, won the Bill Stern award last year.

The last game in October will find the Purple and Gold Lions of Florence State Teachers College invading Murfreesboro for what could be the best game of the season. Florence, coached by the famous Alabama star of 1946, "Hal" Self, is boasting one of the best teams they have had in years.

Last year the Raiders had to go all out in order to post a 21 to 0 victory. Florence ended the season with a very tidy six won, three lost record. By many experts, Florence State will be the toughest team the Raiders will play besides Chattanooga.

NOSE, THROAT,

**and Accessory Organs not Adversely
Affected by Smoking Chesterfields**

**FIRST SUCH REPORT EVER PUBLISHED
ABOUT ANY CIGARETTE**

A responsible consulting organization has reported the results of a continuing study by a competent medical specialist and his staff on the effects of smoking Chesterfield cigarettes.

A group of people from various walks of life was organized to smoke only Chesterfields. For six months this group of men and women smoked their normal amount of Chesterfields—10 to 40 a day. 45% of the group have smoked Chesterfields continually from one to thirty years for an average of 10 years each.

At the beginning and at the end of the six-months period each smoker was given a thorough

examination, including X-ray pictures, by the medical specialist and his assistants. The examination covered the sinuses as well as the nose, ears and throat.

The medical specialist, after a thorough examination of every member of the group, stated: "It is my opinion that the ears, nose, throat and accessory organs of all participating subjects examined by me were not adversely affected in the six-months period by smoking the cigarettes provided."
