

The SIDELINES

VOICE OF MTSC, THE COLLEGE OF INDIVIDUAL OPPORTUNITY

Vol. 33—No. 8

Middle Tennessee State College, Murfreesboro, Tennessee

Wednesday, February 3, 1960

Bennett Cerf Will Appear Here Today

By Pam Hasty

Bennett Cerf, famous humorist, will appear at MTSC this afternoon, February 3, at 2:30 p.m.

The lecture had previously opened to the public, but now it will be open only to the students and faculty of the college, because Mr. Cerf will make a public appearance Wednesday night at the Ryman auditorium.

The school has paid \$1,000 for the appearance. The public will pay \$2.50 a ticket for the appearance at the Ryman auditorium.

This will be the first program at MTSC that is not open to the public. The college issued a statement in which it said it regrets that its "long established policy of welcoming the public to all programs provided by the college cannot be applied to Mr. Cerf's lecture. It is with profound disappointment that the invitation to the public must be withdrawn."

Harry Draper, Mr. Cerf's promoter, protested to the MTSC policy because he said that nobody would pay to see Cerf Wednesday evening if they would drive to Murfreesboro the same day and see him free.

Alpha Chi Inducts Six New Members

Five students and one faculty member at MTSC were inducted into the Alpha Chi chapter of Epsilon Pi Tau, national industrial arts fraternity, at the fall semester banquet and initiation ceremony Saturday night, January 30.

The new members are Billy D. Thompson, Lewisburg; John A. Ishler, Indianapolis, Indiana; Harold L. Baldwin (member of the industrial arts faculty), Murfreesboro; Allen Watts, Murfreesboro; Paul R. Noles, Lynchburg, and Thomas D. Edmonson, Nashville.

NEW BUSINESS BUILDING—The business department at MTSC combined the registration for the first semester in 1960 with the opening of their "new" building. Shown here are Mr. E. W. (Wink) Midgett, head of the business department, and some of the students who began classes in the new facilities last week. Seated are Pat McClendon, Nashville; Beckie Lawson, Chattanooga; Faye Parkhurst, McMinnville; Dortha Hutchings, Shelbyville; Carol McClanahan, Madison; standing are Charles Reese, Nashville; Terrell Curtis, Goodlettsville; Judy Burgen, Tullahoma; John Womack, Woodbury. (Cut Courtesy 'Daily News Journal')

Business Staff Converts Gym For Classes

By Nancy Ellen Johnson

The old Alumni Memorial Gymnasium, dedicated in 1949, became the new home for all majors in the fields of accounting, business administration, business education and secretarial administration on Monday morning, January 25.

Both the building and the department are representative of the constant expansion at MTSC. The business department began as a part of the social science program, and its only instructor, Mr. E. W. Midgett, is now the head of the department.

The new \$176,000 conversion accommodates 500 business majors. It has ten classrooms and a private office for each staff member. The first floor has business offices on the left of the east entrance and classrooms for accounting, stenography, advertising, salesmanship, and business law on the right. The second floor has two large typing rooms, one a classroom and the other a practice room. These rooms house sixty typewriters. There are electrical outlets at each typing table, although not all the machines are electric at present. The student and faculty lounges and the projection room are also on this floor.

A model business office has been set up on the third floor. Also found on this floor is an advanced secretarial practice room, which has ten electric typewriters. On this floor there are also several offices and four soundproof secretarial transcription booths.

The contractor for the new building was Commerce Construction Company, Inc., of Nashville. John Charles Wheeler of Nashville was the architect.

MTSC Continues Participation In T-V Program

Middle Tennessee State College continued its co-operation in the "Continental Classroom" program beginning January 25 with offerings in chemistry, the class meeting at seven o'clock each Monday evening with Dr. Eldred Wiser as the instructor.

The class is being offered for graduate or undergraduate credit for those persons with the background in general chemistry who can do the work successfully.

The class is a part of the televised lecture series sponsored in this area by WSM-TV each morning at 6:30. Many in-service teachers are among the viewers.

The success of the "Dawn Patrol" class is well reported in the January Reader's Digest, which credits the program with a million viewers each morning at dawn. Dr. John F. Baxter of the University of Florida heads up the national program, which includes the best prepared teachers of chemistry who are available.

More than 350 colleges and universities in the United States co-operate in the program. Last year MTSC pioneered in this area with offerings for physics teachers. This class met on Saturday morning.

This year Dr. Wiser has conducted the class on Monday evenings since it was more suitable for the teachers and others who wished to take the course.

Mrs. Stark Speaks To MTSC Dames

Mrs. Clifford N. Stark, wife of the MTSC professor, spoke at the January meeting of the MTSC Dames Club, giving an illustrated lecture on the topic of "India Today."

The speaker and her husband recently returned from several years of working in India. They brought back numerous souvenirs, many of which were on display for the Dames Club members.

Also included in the program were Mrs. Calrence Greever, social chairman, who reported on plans for the Valentine dinner, and Mrs. Fred Rubens, who spoke on the art exhibit now in the Fine Arts Building.

LOST: CLASS RING

Vivian Millsaps has lost a 1959 Copper Basin High School senior class ring. The ring has a red stone and bears the inside inscription of V.L.M. Anyone having information about this ring should contact Vivian at Lyon Hall or leave a note in box 646.

Six Finish Requirements For Master's Degree

Dean Howard Kirksey has announced that six candidates completed the requirements for the Master of Arts degree during the fall semester, which closed January 23. Degrees will be conferred at the May 27 convocation.

Those qualifying for the Master's degree are Robert C. Holt, Madison; Kathryn Marie Jennings, Columbia; Moultrie Jones, Murfreesboro; Major Quentin L. McNary, Murfreesboro; Thomas O'Brien, Murfreesboro, and Roberto E. Porras, Murfreesboro.

MTSC, ETSC Have Exchange Exhibits

The art department of MTSC is presenting an exhibition of paintings, drawings, and designs by faculty members and students of the art department of East Tennessee State College.

The exhibit, which began January 11, closes tomorrow, February 4.

This is the third exhibit to be shown in the art gallery on the second floor of the new Fine Arts Building.

John Benz, chairman of the department of art, and Reuben Gambrell, John Steele and Margaret Hays of the art faculty are showing two paintings each. Approximately 40 pieces of work by 30 students are included.

At the same time this exhibition is being shown here, a similar show of work from the MTSC art department is at East Tennessee State in Johnson City. It was felt that such an exchange would be a stimulus to the two departments and that such an exhibition would be of particular interest in both areas since it affords an opportunity to assess the intention and see the direction of the art program at comparable institutions.

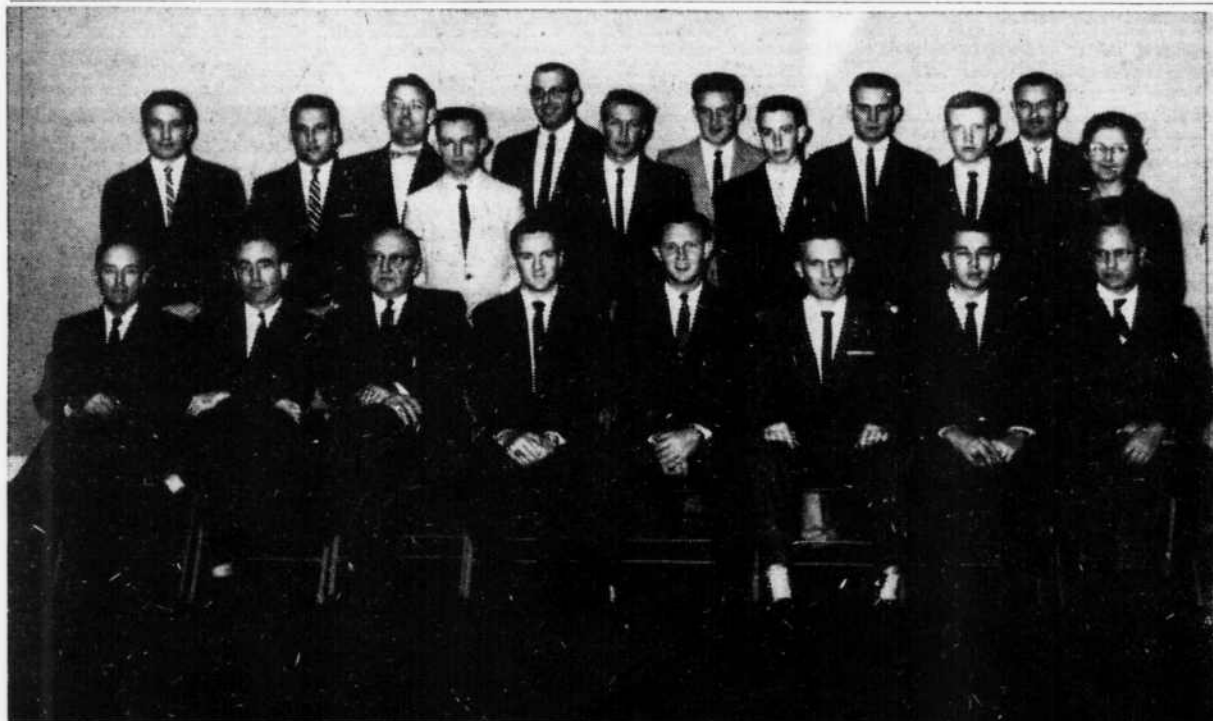

The gallery is open from 8 to 5 daily through the week.

MTSC Participates In Debate Tourney

The annual Middle Tennessee Novice Debate Tournament for Middle Tennessee colleges was held Saturday, January 30, with seven schools participating.

The tournament was also a clinic for senior debate teams of the participating schools to test their judging ability.

Schools invited to send teams were Vanderbilt, David Lipscomb College, Belmont College, Austin Peay State College, Freed-Herderman College, Tennessee Tech and Middle Tennessee State.

MEMBERS OF THE ALPHA CHI CHAPTER of Epsilon Pi Tau on the first row are Professor Phillip H. Dalton, Co-Trustee; Professor E. S. Voorhies; Professor O. L. Freeman, Trustee; Horace McKenzie, Treasurer; Terrell W. Curtis, President; Billy A. Banks, Secretary; Billy Burns; Professor Harold Jewell. On row two are Sam Francescon, Vic Francescon, Harvey Rochelle, John A. Ishler, Billy D. Thompson, Thomas S. Edmondson and Wanda Davenport. On the third row are Assistant Professor Harold L. Baldwin, Allen Watts, Paul R. Noles, Claude Adams, and Assistant Professor Calvin Duggin. (Photo By Dr. Bealer Smotherman)

LETTERS TO THE EDITOR - - - Drama: Registration Chaos -

To The Editor:

THE TAMING OF THE SHREWD

As interpreted by Mot Reprah

On Monday, January 25, 1960, the students of Middle Tennessee State College observed and participated in the play entitled "Registration Chaos," written by Chance Confusion and produced by A. Helleva Mass. The show, an eight to ten hour farce, was directed by Nil "Nothing" Nobody.

This fantastic shocker was received by the public with hot, curseful acclaim. It was hailed by the disorderly audience with heights of emotional and physical fever that practically reached the heights of mob violence. Those tiny petite, cute and darling freshman girls were pushed, shoved, mashed, pinched, and herded like long-horned steers onto the stage rightfully dubbed the Tennessee Room.

One lass fainted from the excess heat and emotional strain. One window pane was shattered, or else committed suicide in order to get away from it all. Practically everyone took part in the forceful fracas, or else threw their play packets to the side and walked home in disgust at the mess or in shame of their own cowardice.

The monitors, who were to keep the play on the move, were harrassed and helpless. But they tried, friends; they really tried. The angels once said, "Woe, woe, woe to thy mislead sinners and distraught men." so be it with the student body.

What to do, Ole Man, what to do? Maybe "McNary's Band" would be called out with fixed bayonets to play sweet, calm, blissful music from the opera entitled "Martial Law." Or even better, let's hire the MTSC marshal by the handle of Anxious Action, backed by a posse made of the ASB Congress. Let the ASB posse members carry double-barrel shotguns with one barrel named "Frank" and the other one "Ernest." Let's do some thinking, fellers, and cut 'em off at Calasnity Junction "fore they git thar".

Mot Reprah

More Reigstration Woes -

Dear Editor:

If you are able to read this, you should consider yourself lucky—that is, if you took the easy way to register last Monday.

If you ask me, I think that MOB was only the beginning of what's to come if the same system is used in the future and our college continues to grow as is expected.

I have talked to several people concerning the system in which we had to register. One teacher said that she was frightened when she tried to get into the Tennessee Room at 7:00. She is a small woman, and she and the girls in the crowd were being pushed and shoved like they were members of the football team.

I, along with many others, was there waiting in line at 7 a.m. (some were even earlier) and didn't even get in the Tennessee Room until after 10:00 a.m. (and some were even later). The reason for this was that there were only about FIVE people being let into the Tennessee Room every ten minutes. That wasn't the end—when I got where I could see the door being closed and locked because we were accused of pushing. After the door was locked in our faces, we noticed that the door at the other end of the hall had been opened and the crowd was just pouring in.

I was puzzled at the news that some teachers went around to the different teachers and got the class cards for their advisees even before the day of registration. This to me isn't very fair to the other students who have to get in the course. I think that if the advisors are going to do this for one advisee, it should be done for all.

Last year when we were on the quarter system and WITHOUT the IBM there was much less trouble in registering. Why can't we do the same under this system? Is it because we now have "The Brain" to make things easier?

I'm asking the administration to PLEASE do something to protect us from the next registration day.

Tommy Williams

"Families used to be considered shiftless if they lived from payday to payday. Now they wish they could."—Vesta M. Kelly.

"Education is an ornament in prosperity and a refuge in adversity."—Aristotle.
MTSC assemblies are a part of your total education. Attend.

Behold, I stand at the door, and knock; if any man hear my voice and open the door, I will come in. — (Revelation 3:20)

As closely as He stood beside His disciples, Jesus, Son of God, stands beside us today, His hand outstretched to raise us, help us—if we will but renounce our sins and open the door of our penitent hearts.

It Happened On Campus

By Kenneth Love

The past semester is now a part of the history of MTSC, but with history there are always facts. Many changes took place this last semester. Standing out most was the change from the quarter to the semester system and the new road in front of the dormitories. The letter P formed by the road stands for progress. The new IBM machines and additional faculty members are to be mentioned with this progress.

Sports played a part this last semester that the college will always remember. Our football team, won the first bowl game in the history of the school, the Tangerine Bowl. The team went UNDEFEATED, although there was a tie with arch rival Tennessee Tech on Thanksgiving Day. The team ranked third in the nation in comparison with small colleges. Several players will be remembered in the years to come, such as Ralph Adams for his kicking ability on extra points and Bucky Pitts and Ray Purvis for speed.

In a limited space, it is impossible to name all the accomplishments of each player, for all were great. To show the appreciation of the team, they were given a banquet recently with approximately 400 persons attending. Bill Wade, Los Angeles Ram quarterback, was the guest speaker. Each player received a gold-palted football and the coaching staff received engraved cigarette lighters. We agree with President Cope when he said at the banquet that "our ball team at MTSC this year will be remembered."

Not only football, but basketball played an important part this past semester. The team tied the school record of 109 points in a single game against David Lipscomb. Also in that game, Bob Burden set a new individual scoring with 43 points.

New dormitories at Smith and Monohan were built, and Jones Hall was converted into girls dorm. The new Fine Arts Building was completed and the old gymnasium was being converted into the new home for business majors.

But a new semester has started, and everyone is hoping that grades will be better this time. If only the students could forget the memories of registration day, wouldn't it be great. Some students came as early as 5:30 and 6:00 a.m. Many students who had pre-registered saw the crowd at the opening hour and left to come back later. Perhaps the Associated Student Body could work with the Administrative Committee to help avoid the unhappy instances that happened

ANOTHER LETTER - - - Expression Of Religion -

I have been to several different churches in Murfreesboro and have heard the beliefs of all. Although they don't necessarily go along with my religious beliefs, I can be proud of one thing—they all believe in one supreme being, God. Without God, we would have no reason for existing, for without Him there is no real existence.

Although I don't act like a Christian all the time, I am trying to improve my bad habits day by day. Being a Christian is a hard thing to do and it takes a lot of determination, but it is worth it in the long run.

Christ takes up two-thirds of the word Christian; that leaves i-a-n . . . I ain't noting . . . and that's about the size of it—I ain't nothing without Christ. I'm not really one to be telling other people about their religious needs, but you have to start somewhere. Why not today? Tomorrow may never come.

Anonymous

IBM Again!

(ACP)—Daily Lass-O of Texas Woman's University reports that Brown University researchers asked an IBM computer just how much it would cost a man to live if his diet were determined strictly by scientific considerations.

The computer reported that minimum quantities of needed protein, calcium, iron, phosphorus and five vitamins could be obtained in only four foods at a nominal cost of 21 cents a day.

The four foods listed by the computer included lard, beef liver, orange juice and soybean meal.

There is one slight drawback, however. As of yet, Brown researchers have not found a way to combine these four foods into a palatable meal.

Smith Smatterings

Now, Just Who Said It Couldn't Be Done

By Jay Hickey

Here we go again, same song, eighth verse, so to speak. We hope everyone made it through registration, physically as well as mentally. Did you ever see such a mob? They said it it couldn't be done! Who would have ever thought the entire student body could have gotten into the lobby of the Student Union Building we have missed a few of the boys since registration. If anyone sees anyone with that "Where am I?" look on their face, just point them in the direction of Smith Hall; they're probably ours.

Pertaining to our grades and quality (?) point averages, some of us have been the victims of a rude awakening. The cries of agony and anguish are still echoing through our halls and more than likely through our homes. We hope this trouble has not struck the rest of you. Our dorm has been somewhat quieter since the distribution of the grades. Could it be that we're trying to do right?

Intramural basketball is attracting a lot of attention over here these days. Running up and down the court a couple of times has a tiring effect on a lot of us. Next year we have got to stop smoking and get organized.

That's about it for this time. We would like to be the first to wish each and everyone of you a merry St. Valentine's Day. We would also like to remind you that this is National "Be Kind To OMGOMPHS" Week.

P.S. Start making your plans for the which takes place on April 14. Friends, this is THE social event of the year at MTSC. We wouldn't miss it for a year's subscription to MAD magazine, and we think a lot of MAD magazine.

Rutledge Ramblings

Registration Day—How Crushing!

By Holland Bratten

The spring semester really got off with a boom! After the crushing experience of registration, Rutledge Hall was more like a hospital than a dormitory. The survivors however, are now in full swing again.

Rutledge lost several girls between semesters Sylvia Hennessee, Janie Wolfenbarger and Mary Tom Fossick.

Mary Lou Crosby is back at Rutledge after having to drop out at the beginning of the fall semester due to an appendectomy. Judy Dowdy transferred to Rutledge from Lyon Hal, and Jeanne Pardue came to MTSC from API at Auburn, Alabama.

that morning.

Don't forget the opera to be presented by the Drama and Music Departments on the 17th and 18th of February. Walter Anderson, Andy Feidrich, and Barbara Simmons have the lead roles. Last year there was standing room only, so tickets must be secured in advance. All seats are reserved.

The Tennessee A & I University choir gave a musical program last Thursday in the auditorium. The fifty minute program was given before a capacity crowd with standing room only.

The Red Cross bloodmobile at the ROTC department was a great success, officials have stated. There were 187 pints of blood given with 50 persons rejected because of the overflow.

Two station wagons that were bringing East Tennessee State Col- (Continued On Page 3)

THE SIDELINES

Published semi-monthly by the students of Middle Tennessee State College Murfreesboro, Tenn.

ONE HUNDRED AND EIGHTY-THREE MTSC students and faculty members donated blood to the Red Cross January 26, when the Bloodmobile visited the ROTC department. Of this number, 173 were members of the ROTC Brigade.

ROTC Cadets Lead Way As 237 Donors Offer Blood

The Bloodmobile's visit to the ROTC department of MTSC last Tuesday was a most profitable one. Two hundred and thirty seven volunteers offered blood, with 183 actual donations. Of this number 173 were cadets in ROTC Brigade.

Three Couples Tell Plans For Marriage

By Pam Hasfy

Three former MTSC students have recently announced their plans for marriage. Frances Jackson of Nashville will be married to George Marshall Cranford on February 13. Frances received her Bachelor of Science degree from MTSC last year. While attending college, she served as secretary of the student body and was elected Homecoming Queen. She was selected for *Who's Who In American Colleges and Universities* and was voted the most popular girl in her senior class.

Evelyn Pippenger of Cleveland will marry Edwin Caldwell Lee on February 21. Evelyn was make-up editor of the *Sidelines* last year while she was in school here. She is now employed with State Farm Mutual Insurance company. Ed is a member of the MTSC class of 1960.

Barbara Joan Gordon of Murfreesboro became the bride of Ben Thomas Tittsworth a January 19. Barbara was a student at MTSC last year.

Major Quentin L. McNary, PMS-&T, expressed pleasure at response by the corps, faculty members and others of the college staff. "The cadets had a little more incentive than some of the others, perhaps," the major laughed. "We gave each donor ten merits and two days excuse from drill."

Those giving blood follow: Truman Lee Jones, James D. Johnson, Mrs. Elsie Cantrell, Thelbert Lunsford, David L. Payne, Gerald Scott, James S. Tarpley, Larry N. Haynes, Mrs. Neda Carter, Roger W. Arnold, Mrs. Azone Adams, Charles T. Casey, Miss Marjorie Carter, Giles H. McBroom, Joe R. Cunningham, Randy L. Perry, Bobby Nichols, Robert Rose, Jimmy Reed, Leonard Herman, Jerry Pearson, Roy Troop, Jerry Bogle, Ewing Taylor, Arthur Johnson, Joseph M. Muschler, William Adle, Richard W. (Continued On Page 6)

You CAN Remember Names With Four Simple Rules

With four simple rules, you can train yourself to become virtually infallible at remembering names.

Author Frederic Sondern Jr. points out in a *Reader's Digest* article that forgetting names can cause more than temporary embarrassment; it may cost you a pleasant friendship or a profitable business contact.

Politicians, businessmen and others in public life recognize this fact and work at the business of remembering names. General Eisenhower once impressed a group of French military leaders by remembering their names even though he had met them only fleetingly years before. Former Democratic National Chairman James Farley has estimated that he has in his mind the names, faces and backgrounds of 20,000 people. Former President Harry Truman, F.B.I. director J. Edgar Hoover and hotelman Conrad Hilton are others whose ability to remember names has been an important factor in their success.

The four rules for remembering were formulated years ago by Dale Carnegie. They are based on his belief that accurate memories are not necessarily gifts, but can be taught just like other skills. The rules are:

Get the name clearly when you are introduced. If the name is not clear, ask the introducee to repeat it. But don't ever ask a third party present—he may not know it himself.

Give the name a chance to sink into your mind. The best way to do this is to repeat it a few times in the ensuing conversation.

Learn the face while you are learning the name. Look at the face, the posture, any distinguishing marks. Learning to associate names and faces will make remembering easier.

Try to make a mental picture to cement name and face together. The author says one of his favorite ways of doing this is by making up a rhyme about the person. For example: "Mrs. Furnum should be the Barnum." It may not be true but it will cement Mrs. Farnum's name and face in your mind.

Another way is to create a picture of the person doing something associated with his name. Mr. Hamilton, for example, could be pictured as a human head with a ham's body, weighing one ton.

Learning these mental tricks, says Sondern, can be much more than a pleasant way to improve your mind. It can pay dividends in terms of improved business and personal relationships.

It Happened - - -

(Continued from Page 2)

lege basketball players to the MTSC game on January 9 had an accident near Sparta. The vehicle skidded off the pavement because of icy roads but no one was injured. Similar accidents have happened before, as in the case of MTSC cheerleaders going to ETSC in 1958 having a wreck on the way to the football

Beauty Show Is Entered By Freshman

Middle Tennessee State was represented in another beauty contest last week when Dorothy Faye Arrington, daughter of Mr. and Mrs. Garland Arrington of Lebanon, represented Wilson County in the "Fairest of the Fair" contest in Nashville.

Faye was chosen at the Wilson County Fair last year and appeared with 38 other contestants at the noon luncheon of the delegates to the Tennessee Fair Association meeting at the Maxwell House.

In high school Faye was FFA Queen, editor of high school annual and winner of home economics and physical education medals.

University Of Hawaii Offers Travel, Study As Low As \$495

The 1960 Summer Session at the famous University of Hawaii will convene June 20 through August 1960, it was announced last week by Dr. Robert E. Cralle, Executive Secretary, California Association of School Administrators.

The Manoa Campus of the University of Hawaii, in our 50th State, will be opened to hundreds of teachers and scholars from all over the world. In addition, the six weeks session attracts a distinguished visiting faculty from the Orient, Europe and the Continental States, and offers a wide range of courses and unusual subjects. Included in the University's curriculum for the 1960 Summer Session are some 215 courses in 39 fields.

Special six weeks travel and study tour for students is being offered this year through the University Study Tour to Hawaii. Special prices for students begin as little as \$495.00. This price includes round trip transportation by ship or air, dormitory and hotel accommodations, field trips, tours of the islands, dances, adventurous summer picnics and outings, plus free bus transportation and many planned social and scholastic activities.

Complete information on the 1960 Summer Session and Bulletin describing the program are available by writing to Dr. Robert E. Cralle, University Study Tour to Hawaii, 3305 Wilshire Blvd., Los Angeles 5, California.

should be a good game. Murray (Kentucky) will invade the Raiders on the 10th of February. Support your team—attend the games.

Jean Adamson, 1957-58 debate star for MTSC received a scholarship to University of North Carolina for the next year. Recently she married a soldier from that state. Jean won many awards in her debate work at MTSC.

J. Pope Dyer, MTSC Grad, Is Honored

J. Pope Dyer, head of the social science department of Central High School, Chattanooga, was one of the four teachers of Tennessee who were recently honored by the Freedom Foundation of Valley Forge, Pennsylvania, for "contributing greatly to a better understanding of the American Way of Life through teaching citizenship in an exceptional way."

Mr. Dyer received his Bachelor of Science degree from MTSC, his Bachelor of Laws degree from the Chattanooga College of Law, and a Master of Science degree from the University of Tennessee, where he was admitted to Phi Kappa Phi and Phi Delta Kappa fraternities. He has taken additional graduate work.

Mr. Dyer was eight years principal of the Signal Mountain School, and for over twenty years he has been connected with Central in Chattanooga.

He has been active in civic, political, educational and religious activities. He served as president of the Signal Mountain Civic League, Town Commissioner of Signal Mountain; teacher, deacon and Sunday School Superintendent in the Signal Mountain Baptist Church, president of the MTSC Alumni Association; president of the Hamilton County Teachers' Association and president of the Lookout Schoolmaster's Club. He was recently elected as a delegate to the Tennessee Constitutional Convention.

Mr. Dyer has been cited by the Freedom Foundation on seven different occasions for his work in Americanism.

Congratulations are in order to the Methodist students on campus for the publication of their first newsletter, *Confere*. Joel Underwood, pastor of the new Trinity Methodist Church, is the director.

Our varsity team had an unfortunate experience in Cookeville last Tuesday night; they lost. MTSC had a good cheering section. There will be a return engagement on February 13. This should encourage students to remain on campus that weekend. There will also be a ballgame this Saturday night, when we play Western Kentucky, the home of Coach Ed Diddle, Jr.'s father. When father meets son, there

BILL WADE, guest speaker at the Raider Club banquet, talks with Ray Purvis, Gene Windham, Bucky Pitts and Whit Watson who composed what was probably the greatest backfield in MTSC history. (Cut courtesy of 'News Journal')

Along The Sidelines

By Ralph Englert

The Surge Continues For Basketball Might—

Well past the halfway point of the season now, the Blue Raiders are floundering—not miserably, but likened to mediocrity—around the .500 mark for total games played to date this year.

They have raised quite a tremor among the Ohio Valley Conference's coaches with their close-to-the-finish games, giving opponents a rude awakening to the true ability of Coach Ed Diddle Jr.'s outfit (this being in complete disagreement with the pre-season poll in which the Raiders were given little support to rank with the more powerful of the OVC set). One conspicuous item has still remained to beset the Blue and White's hoop fortunes, namely lack of height. Nevertheless, the Raiders can, and probably will, improve on last year's frustrating 8-17 record.

This is not, by all means, a bad year for the young men in blue. A fine center-forward named Bob Burden, a crack play-maker named Don Smith, an excellent ball handler and all around player named Paul Holland, two aggressive forwards named Ralph Bryant and Ray Hammers, plus capable and yearning substitutes, have all added their respective qualities to make this one of the best basketball teams to represent a school not very renowned for court prestige.

The team's conference record is not very impressive, but if the closeness of each game, (excepting a 19-point mauling by the conference leader, Eastern Kentucky), was put in the standings, the squad certainly would not look unimpressive. Another interesting fact is that the Raiders have only lost once in their home court, that being to Eastern; and with four of their last six OVC games scheduled for the friendly confines of Memorial Gymnasium, a brisk stretch drive could not seem totally unprobable.

An Outlook of Optimism—

Concerning the deficiency in basketball prowess as mentioned above, Raider supporters can rest assured. Messrs. Diddle and William Stokes are taking care of that. Another top notch freshman team, again dominated by Kentucky-bred material, has appeared on the scene. They have felt the pangs of defeat only once this year, and unlike the varsity, they have that necessary essence for hoop prosperity, height.

The Baby Blue Raiders do not have one single man listed on their roster which is under 6 feet in height. The tallest is 6' 10" Fred Oldenberg, while there are three members which are 6' 1" and are the smallest on the squad. Eight of the twelve members are from Kentucky, three from Tennessee, and one from Hagerstown, Maryland.

Coach Diddle and his diligent assistant, Bill Stokes, who tutors the freshmen as well as helping with the varsity, are to be complimented on their job of building the Raiders into a team of prominence. Their work only started four years ago when Diddle was assigned to the head post and he in turn acquired Stokes. This is the first year in which they have been able to work with a team which was entirely recruited by them, and it is a team in which they hope to build a foundation for the better teams they aim to mold.

On top of the outstanding frosh they have secured who will become varsity members next year, they will have nine of this winter's eleven senior men returning next year. Raider fans can now expect to see the rise of basketball prominence here as the beginning is already much in evidence. Yes, the outlook is very favorable indeed.

A Man With Problems—

Coach Charles M. "Bubber" Murphy, the magnanimous Director of Athletics and head football coach, is a man confronted with puzzling perplexities. Spring practice begins just next week, but he is already aware of the situation which will face him and his staff.

Gone from his squad are 14 members which were so significant in the Blue Raiders' success stories of the past four years, and how he is going to replace them is his worry. Not that he does not have capable replacements returning, but you just don't lose men like Bucky Pitts, Ray Purvis, Ralph Adams, Brady Lockett, et. al., and still expect to get along without their play and inspiration.

Asked to explain his plans for spring practice, and if he planned to make any position shifts, Murphy replied: "We want to find the best 22 players and the only way we can do this is by blocking and tackling for 20 days in practice." Make no mistake, Coach Murphy has no idea who will be his starters until he has seen the outcome of the drills. He will try different men at different positions until he is satisfied with the results. He has even stated that if there is any boy in the school who would like to try out for the team, he should contact the coaching staff immediately.

But Murphy also has ideas constantly running through his mind. He has said that he will start with Terry Bailey, last year's No. 2 quarterback, at the commanding position, Jim Nabors, third-string halfback last year, and Hillary Carr, third-string fullback, at the halfback positions, and Larry Puryear, second-string fullback, at the same spot.

The line will be bolstered by quite a few returnees, but at what position will be revealed later, as shifts will most likely occur during practice sessions.

This and That—

—Both the basketball and football teams suffered a loss at the conclusion of the fall semester's final examinations. Joe Wiggins, a tackle from Nashville may be lost to the grid squad, and Jim Hart, a reliable reserve on the hoop team have departed due to scholastic difficulties.

—A bright new addition has been made to the baseball team through the person of Jim Basinger, a former teammate of John Stanford, Mori Hill, and Jimmy Painter, Raider Baseballers last spring. These boys played together on the Far East Championship team while serving in the Air Force. Basinger is a left-handed pitcher and first baseman.

—It is rumored that Tommy Hackler, the Little All-American end for Tennessee Tech last fall, has also flunked out of school at the end examinations.

Do You Think for Yourself?

(BUZZ THIS QUIZ AND SEE WHERE YOU LAND!*)

"A little learning is a dangerous thing" means (A) it's better to leave your mind alone; (B) people who act on half-knowledge often make mistakes; (C) beware of sophomores.

A B C

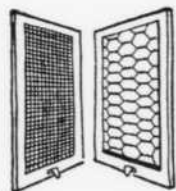

"Never look a gift horse in the mouth" is good advice because (A) he'll bite; (B) even if his teeth show he's old, what can you do about it? (C) there's nothing in there anyway.

A B C

Assuming the starting salary is the same, would you rather have (A) a job with an assured income for life, but with no chance to increase it? (B) a job where you'll always be paid according to your abilities? (C) a job where you have to advance rapidly or be fired?

A B C

"The finer the filter strands, the finer the filter action" is a way of saying (A) don't use chicken wire in a window screen; (B) Viceroy gives you finest filter action because it has the finest filter strands; (C) the finer the filters, the finer the smoking.

A B C

When you depend on judgment, not chance, in your choice of cigarettes, you're apt to be a Viceroy smoker. You

will have found out that Viceroy gives you the best filtering of any cigarette, for a taste you can really enjoy. A thinking man's filter. A smoking man's taste. That's Viceroy!

*If you checked (C) on three out of four of these questions, you're fairly astute. But if you checked (B)—you think for yourself!

Familiar pack or crush-proof box.

The Man Who Thinks for Himself Knows —
ONLY VICEROY HAS A THINKING MAN'S FILTER... A SMOKING MAN'S TASTE!

Jimmy Hagan Leads Tech In 76-69 Eagle Victory

Tennessee Tech's All-America candidate, Jimmy Hagan, scored 28 points and grabbed 26 rebounds to lead the Golden Eagles to a 76 to 69 Ohio Valley conference victory over Middle Tennessee at Cookeville last Tuesday night.

The win gave Tech a 4-2 mark in the OVC and lifted the Eagles into undisputed possession of second place. The MTSC's Blue Raiders hold a 1-4 record in the conference.

Hagan got plenty of assistance from teammate Tom McKinney, who dunked in 20 points and collected 13 rebounds before being pulled with four personals with about 12 minutes remaining in the game. He never returned.

Ralph Bryant, Bob Burden and Don Smith shared scoring honors for MTSC with 13, 12, 12 respectively.

Smith made a jump shot from 10 feet out to put MTSC out in front 2-0, opening the game. A minute later he put the Raiders in front 4-2, but that was the last lead held by the visitors.

Hagan hooked one from 18 feet to knot the score 4-4 and then put the Purple ahead 5-4 with a free throw with 16:29 remaining in the half.

Tech gradually added to its lead and was ahead 36-29 at the half. The Golden Eagles led by as much as 15 points in the second half.

Tech shot a mediocre 34 per cent from the field and MTSC could only muster 24 per cent. The rebounding totals were close with Tech ahead 73 to 70.

Illness Costs Bob Burden Scoring Lead In OVC Play

Bob Burden's illness cost him the lead in the Ohio Valley Conference scoring race. He pocketed only 15 points against Tennessee Tech and 11 against Eastern Kentucky. East Tennessee's Tom Chilton, who hit for 36 of his team's points in the 78-74 loss to the Raiders earlier this season, now leads the league. Previous to these games, Burden had been averaging 22.7 points a game.

Although Don Smith continues to lead the OVC in foul shots made—an amazing 77 out of 91—he is trailing Tech's Dave Eakins percentage wise .919 to .846.

The conference race now stands:

Individual Scoring			
Player, Team	G	Pts	Ave.
Chilton, East Tenn.	13	323	24.7
Hagan, Tenn. Tech	13	296	22.8

HEY, GIRLS!

Now that the new semester is underway, the Women's Bowling League is again meeting regularly on Thursday afternoons at 4:00 at the Murfreesboro Bowling Lanes.

It makes no difference whether you are a pro or have never bowled in your life . . . you'll have fun if you join the Women's Bowling League!

For more information or transportation, contact Mrs. Betty Littlefield at TW 3-9100 or Lois Patton or Pat Turner through the MTSC post office.

Ineligibility Hits MTSC Ball Clubs As Grades Drop

Middle Tennessee's basketball team, already crippled by the illness of Bob Burden, was staggered scholastically Monday with the announcement that sophomore center Jim Hart failed to make the grade during the last semester.

The loss of Hart, 6'4" performer from Paducah, cuts deeply into what Coach Ed Diddle Jr. had in the way of height.

With Hart out, Paul Dailey, a 6'3" sophomore from Benton, Kentucky, probably will see heavier reserve duty. Dailey played considerable at Lipscomb Saturday and scored in the double figures.

Coach Murphy also lost Joe Wiggins, a varsity guard, and four members of the freshman team due to scholastic difficulties as the semester closed.

East Tennessee Wagon Damaged Enroute Here

Two station wagons, bringing members of the East Tennessee State College basketball team to Murfreesboro for the January 9 game with Middle Tennessee State were involved in accidents on the mountain just outside Sparta last Friday night. One of the vehicles was seriously damaged.

The wagon driven by assistant coach Bill Maxey skidded on the icy pavement and went off the right of the road about 30 feet down an embankment, where it struck a boulder. None of the players riding in the car were injured. Another of the ETSC station wagons skidded into the left embankment. None of the players in this car were injured and there was little damage to the machine.

MTSC extended the loan of a station wagon for the team to return to Johnson City on Sunday.

Raiders Come Home For Four Games After EKSC Loss, Lipscomb Win

Following the 100 to 70 loss to Eastern Kentucky last Saturday night in Richmond, Kentucky, the Raiders return home for four straight games, the top of which is the Western Kentucky meeting of father and son, the Ed Diddles, on Saturday night of this week in the MTSC gym.

Next Wednesday the Murray Thoroughbreds come to Murfreesboro, and on Saturday, February 13, TPI is here for the annual big game of the year.

Don Smith and reserve Ed Newton took over when Bob Burden was sidelined with flu and an infected tooth last Saturday night to give the Raiders a 96-78 win over David Lipscomb in Nashville.

For little more than a half the Bisons entertained hopes of an upset over MTSC. They led the Raiders 49 to 46 at halftime and seem to have the edge in almost every department.

With the two big men 6-4 Ken Mecalf and 6-7 Larry Peterson controlling the boards, it almost looked like a Bison win. Lipscomb had the boards under control.

Then in the second half, the walls started to fall in on Lipscomb. The Raider speed and shooting accuracy broke the Bison spirit.

Little Don Smith ended the game with 26 points, one of his highest totals of the year, and four other Raiders hit in the double figures.

Heading the list was reserve Eddie Newton who hit his peak for the season with 15 points, six of which were field goals. Ralph Bryant and Jim Hart each got 13, and Paul Dailey got 10.

Raider Roundup

By Paul Perry
Sports Editor

Fierce-Minded Eastern Kentucky Running Wild in OVC Race—

Since the OVC basketball race began to roll shortly after the first of the year, it seems that a roundball crew from Richmond, Kentucky, is completely unbeatable. This crew about which we speak is the Eastern Kentucky State towering Maroons, who have already all but sewed the last few stitches on the OVC cage title for this campaign. This club has been knocking off everybody, including Western Kentucky, the favorite before the season began highly publicized Jim Hagan and Tennessee Tech.

This club is not tall, but it has speed, accuracy, weight, and that all-important know-how which in a combination will bring wins and more wins and stardom to a cage outfit. The two main cogs in head coach Paul McBrayer's cage company are junior guard Carl Cole, with a 20-point average, and a first-of-the-season bench-warmer, Philip Estep. "With Cole and Estep in the lineup, I have the best pair of defensive men I've ever had playing the front line at one time," echoed throttle puller McBrayer.

TPI coach John Oldham was quoted as saying that if this Eastern team had a weakness, it was not visible. And as the successful team makes its rounds on the other league members, a few of the other coaches are inclined to agree with the Tech mentor's statement.

The Blue Raiders gave this club a fight for 20 minutes and then fell apart at the hands of the Maroons in the final half. After trailing only 35-34 at intermission, the boys from the hills of East Kentucky proved to be too much for the younger MTSC'ers. And if a stop isn't slapped into the face of this machine in the immediate future, it is going to be a one-team race the rest of the journey in the OVC.

Raider Pigskinners Honored at Mammoth Banquet—

More than 400 sports associates gathered in the MTSC Student Union Villa on the night of January 25 to honor the Blue Raiders, undefeated Ohio Valley Conference co-titlists and Tangerine Bowl champ football squad and staff. Much of the audience was made up of radio men, members of the press, and well-known personalities, sports and otherwise.

Los Angeles Ram field Bill Wade, one of the finest young men and one of the top after-dinner sports speakers of today, was on hand to advise and humorize the sizable group. Wade, who is very active in the nation's Young Christian Athletic Crusade, spoke on the subject of, keeping the principles of football in their hearts (the players), adding the football is a game that should never be allowed to escape from the American way of life.

Probably the sadest personality at the dinner was Raider head coach Bubber Murphy, who stated that "we're giving up 14 of these boys. I wish we could keep them around a long time. They'll be hard to replace."

Among the guests on hand at the affair, which was hosted by seven local civic groups, were Nashville Tennessean sports head Raymond Johnson, and John Havlicek from the same paper, Nashville Banner's Ed Givan, and sportscaster Hudley Crockett from radio WSIX Nashville.

Former Blue Raider performer Dr. Kenneth Ezell served as toastmaster of the hour-of-sports carnival and did a brilliant job, while local businessman and former Southeastern Conference basketball official Herman Jackson presented each Raider member an engraved miniature gold football.

Windup Blues

East Tennessee State's Tom Chilton is now the OVC's leading cage scorer. The one-hand push-shot artist scared Blue Raider fans time and time again as he rimmed the bucket in ducking 38 points when the Bucs played here a couple weeks back.

Hester Gibbs, MTSC's all-round athlete, has apparently given up all hope of fighting in the amateur Golden Gloves tournament in Nashville. Gibbs, who was last years heavyweight king and probably the most popular boxer to step into the Hippodrome Arena in many years, joined the Raider basketball squad but was forced to the sidelines with a bad hip.

Athletic director Bubber Murphy has announced that MTSC spring drills will begin February 8 and run until early March.

The loss of huge reserve center Jim Hart dealt a big blow to Ed Diddle's cage group. The Paducah, Kentucky, sophomore apparently was sidelined because of scholastic reasons.

Rumor of a half-dozen Citidal football players transferring to Middle Tennessee was emphatically denied by Raider authorities recently. Fire was set to the idea when a couple of the boys visited the campus after watching the Raiders perform in the Tangerine Bowl.

Ex-Blue Raider athlete Hershel Moore says he will take no credit whatsoever in the success of the football team he coached this past season. The team is Glencliff Junior High, which won all but one game in its first start as a member of the NIL while playing only freshman and sophomores and produced the states top point-maker in tailback Wayne Bush.

MTSC student Wayne Harbin just fought in the Nashville Golden Gloves festival in Tennessee's capital urban center. The Nashville sophomore fought under the direction of the Police Department.

Local Optimist prexy Bob Rose recently presented half-back Ray Purvis and tackle-place-kicking-expert Ralph Adams trophies as the outstanding back and lineman of the year at a sports dinner given at the Polk Hotel honoring top prep stars.

WKSC's Edgar Diddle, Sr., says, "Give me a boy for my team with big hands and feet and I don't care whether he has ever seen a basketball or not—he'll be a topnotch performer."

Senior footballer Moose McCarroll, a Lenior City product, received a prankish scholastic trophy at the Blue Raider dinner for coming up with a dignified set of signals during a game last fall.

Pi Gamma Mu Honor Society Inducts Five On Scholarship

Five MTSC students have been accepted by Pi Gamma Mu, national honor society for social science majors and minors who have attained outstanding recognition in scholastic achievement.

The five include James Durham, Murfreesboro; Marie Francis, Woodbury; Walter Hillis, Bone Cave; Jerry Williams, Cowan, and Raleigh Wooten, Murfreesboro.

The degree team which inducted the neophytes into the fraternity was composed of Barbara Rogers, president, Donald Hill, vice-president; Mrs. Judy Smith, secretary, and Richard Palmer III, historian of the MTSC chapter of Pi Gamma Mu. The degree team was assisted by Dr. Edward Baldwin, a member of the MTSC faculty, Dr. Norman Parks and Dr. W. M. Windham are

Pittard, Editor Of 'Midstater,' Plans Alumni Recognition

Dr. Homer Pittard, editor of the *Midstater*, the MTSC alumni bulletin, has requested graduates of the college to comply with the recent request from his office to nominate outstanding alumni to be featured in the 1960 *Midlander*.

At the annual alumni banquet in May, three of these alumni will be recognized in special ceremonies. In addition to having their pictures and biographical sketches in the yearbook and the alumni dinner recognition, each of three chosen will have pictures placed in the Todd Memorial Library on the campus.

This recognition will be an annual affair with three outstanding alumni being chosen each year.

"It should be remembered," Dr. Pittard said, "that of the 6,000 liv-

ing graduates of MTSC, virtually every education and profession is represented. No line of work will be given priority by the committee appointed to select the persons to be honored."

Hiran Holtsford, Lawrenceburg attorney, is president of the MTSC alumni association. He has appointed a committee to review all nominations, which are being received at the MTSC alumni office.

POETS, AUTHORS, ARTISTS

Here's your chance: submit work for OPUS, 1960. Manuscript should be submitted to Mr. E. O. Hawkins in the English department, art work to Mr. David Ledoux in the art department. Deadline is March 15.

LIKE NO, MAN

(ACP)—Southern Illinois University Egyptian carried this item:

A beatnik received quite a shock from a member of the Office of Student Affairs (OSA) recently.

An unclassified student was being advised for the winter quarter by a member of the OSA staff and was wanted to take 14 hours from the same department. The staff member informed the student this was not possible.

Snapping his fingers, the student reportedly said, "Like man, I gotta have the 14 hours, cause, man, I'm gonna turn this world upside down."

The adviser leaned back and calmly replied, "Well, like man, you're still not gonna do it."

JUAN W. SPANN

Fort Benning, Ga.—Army 2d Lt. Juan W. Spann, 23, completed the officer basic course January 15 at The Infantry School, Fort Benning, Georgia.

The ten-week course is designed to familiarize newly commissioned officers with the duties and responsibilities of an infantry unit commander.

Lieutenant Spann is a 1955 graduate of Donelson High School and a 1959 graduate of MTSC.

DONALD L. McDONALD

Pensacola, Fla. (FHTNC) — Undergoing Pre-Flight training at the Naval Air Station, Pensacola, Florida, is Naval Aviation Cadet Donald L. McDonald, son of Mr. and Mrs. Lyle O. McDonald of Route 2, Murfreesboro.

He attended Middle Tennessee State College before entering the Flight Training Program at the Naval Air Station, at Memphis.

The 16-week course covers aviation science, navigation, and other military and technical courses to prepare him for duty as a flight officer. Upon completion of Pre-Flight, he will undergo Primary

flight training as Saufley Field Naval Auxiliary Air Station in Pensacola.

ROBERT P. WILLIAMSON

Robert P. Williamson, MTSC alumnus of 1958, has completed a six months tour with the Air Force, and is now with the Equitable Insurance Company in Bowling Green, Kentucky.

ILL-FATED FISHER

(ACP)—In a recent news story, the University of Southern California's *Daily Trojan* inadvertently demoted one Dr. S. C. Rittenberg, professor of bacteriology, to associate professor.

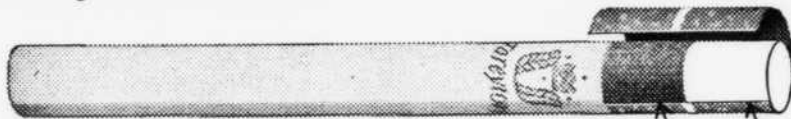

Dr. Rittenberg's reaction was a letter to editor Larry Fisher promising to name a nasty bacterium after him. Fisher apologized editorially to the professor, but this time his name came out as Rottenberg.

The scientist's next message: "Now I have no alternative. The next nasty bug I find gets your name. Please drop me a line with the correct spelling of your name given. I'd hate to make an error."

POPULAR FILTER PRICE

Filters as no single filter can... for mild, full flavor!

Here's how the Dual Filter does it:

Dr. Kirksey Publishes Article In 'Beta Administrator'

Dr. Howard Kirksey's article, "What's In A Name," is featured in the current edition of **The Beta Administrator**, a publication that circulates to the sponsors and school principals where chapters of the National Beta Club are located.

The editor of the publication, in commenting on Dr. Kirksey's distinguished career in education, states that, "Dr. Kirksey ranks among the top educational statesmen . . . of the nation."

The article, which concerns the responsibilities and necessities for pupil guidance, points out that as teachers moved into population centers and became specialists in their jobs, much of the wholesome personal contact with the pupils enjoyed by the teachers of two generations ago had been lost. He compared this to the loss of vitamins experienced in food as home grown and home prepared vegetables gave place to more inviting but less wholesome foods.

"Guidance is not new any more than vitamins are new in diets. Guidance . . . is the name we give to the efforts we make to correct our past mistakes. One cannot get energy from food if vitamins are lacking, and he cannot assimilate an education without guidance," Dr. Kirksey writes.

"Teachers who understand and want to help children and who are interested in learning how better to help them develop will assure some degree of guidance. It is important to organize the school program so that teachers have the opportunity to counsel their students," he concludes.

Fantastic Weapons Appear Stranger Than Fiction

An inflatable nylon airplane that can cruise at 60 miles an hour . . . a rifle that shoots rand grenades instead of bulets . . . a portable antiaircraft gun that fires guided missiles . . . a flying jeep.

These are some of the fantastic weapons in the stranger-than-fiction arsenal of tomorrow's Army. John G. Hubbell reveals in **Reader's Digest** article that each of these "man-from-Mars" gadgets is ready now for immediate use in case the United States is attacked.

The Inflataplane was developed by Goodyear Aircraft Corp. for getting G.I.'s into—and out of—tight places. It weighs only 200 pounds and can take off in just 100 yards. It can cruise at 60 miles an hour for six and a half hours.

A grenade-shooting rifle is one in a series of arms that will enable tomorrow's foot soldier to knock out enemy targets from 100 or more yards away.

For use against low-flying aircraft the Army has developed the missile-firing Red Eye. It weighs only 20 pounds, fires a heat-seeking missile that will carry it to any plane within its range.

And for the foot-soldier who wants an uplifting change, the Army has a flying jeep and a one-man flying platform. Under study is a device to lift the GI off the ground and carry him to his objective at 50 to 70 miles an hour.

The article suggests that a potential enemy may well have such weapons too. Thus tomorrow's soldier may find himself wrapped in an air-conditioned suit which will protect him against poison gases, heat from nuclear blasts, even shrapnel hits. If despite this protection, he needs to crawl into a hole in a hurry, he can use a small rocket gun to blow a fox-hole into the ground just big (Continued on Page 8)

Mock Resigns From Slater, Succeeded By C. Kohlhaas

CHRISTIAN KOHLHAAS

William Ed Mock, for the past two years manager of the MTSC cafeteria and lunch room, has resigned to accept a food cost service office job with International Hosts, operators of the Glass House restaurant chain. He has been succeeded by Christian Kohlhaas (pronounced Cold House).

Mr. Mock will be located in Elkton, Indiana.

Mr. Kohlhaas, a native of Singnac, New Jersey, has been with the Charleston Naval Base and the University of South Carolina since joining the Slater Organization. Previously he operated his own catering service at Singnac, New Jersey.

Mr. Kohlhaas graduated from the Passiac Valley High School at Little Falls, New Jersey, and The Farley Dickenson University of Rutherford, New Jersey.

His wife is the former Marie Winschuch. The Kohlhases have two children, Chris, age two, and Karl, a year old.

Three Given Opera Leads

Samson and Delilah, generally regarded as the masterpiece of Camille Saint-Saens, will be the annual operatic production of MTSC this year.

Scheduled for February 17 and 18, the opera will feature Walter Anderson as Samson, Ann Wiedrich and Barbara Simmons double-cast as Delilah, John McDonald as High Priest, Bob Hollingsworth as Abimelech, and Glenn Arnold as an old Hebrew.

This production is a joint effort of the music and drama departments, which have collaborated in recent years in producing **Carmen**, **Die Fledermaus**, **The Marriage of Figaro**, **The Bartered Bride**, **Pagliacci** and **Cavalleria Rusticana**.

Neil Wright will serve as music director, Dorothe Tucker as stage director and Margaret Wright as principals' coach.

Due to the fact that these operas have performed to standing room only audiences, all seats are reserved and must be secured in advance.

Pi Gamma Mu - - -

co-sponsors of the MTSC chapter of PGM.

Durham is a graduate of Macon County high school in LaFayette, while Marie received her high school diploma from Woodbury high and Hillis received his from Van Buren County high. Jerry graduated from Franklin County high school and Wooten attended school in Hernado, Mississippi.

Business Department, Pi Omega Pi To Sponsor Typewriting Competition

The business department of MTSC has announced that the annual typewriting contest for high school business departments will be held early in April, with the tentative date now being fixed at Friday, April 1.

Mrs. Henrietta Wade and Mr. Morris Puckett will be in charge of the contest this year. The Middle Tennessee State College chapter of Pi Omega, honorary business fraternity, will present awards to the winning typists for first year students and those who have had more high school typing.

The contest this year will extend to all high schools with a business department in Rutherford, Williamson, Marshall, Bedford, Franklin, Coffee, Dekalb and Wilson Counties.

E. W. Midget is head of the business department. His staff includes Hollie Sharpe, Fowler Todd, John M. Puckett, Mrs. Ruth Garland, Walter L. Chatman, Mrs. Henrietta Wade and Gene Sloan.

"A procrastinator is one who puts off until tomorrow the things he's already put off until today."—Griff Niblack.

Hawkins Speaks On Faulkner At Woman's Club Meeting

Professor E. O. Hawkins, assistant professor of English at MTSC, spoke to the literary department of the Woman's Club Monday, February 1. The topic of his speech was "Faulkner's Children." He showed how Faulkner utilizes a series of re-appearing characters in his Yoknapatawpha stories and novels.

Mr. Hawkins received the A.B. and M.A. degrees from the University of Arkansas and is completing his dissertation on William

Faulkner for the Ph.D. degree. He has taught at William Jewell college, in Liberty, Missouri and at Los Angeles, California. He has made his home in Murfreesboro since 1956.

"Woman would be more charming if one could fall into her arms without falling into her hands."—Remy DeGourmont.

The Old Timer

"If you want the world to beat a path to your door, just lie down to take a nap."

Mark Twain in *The Mysterious Stranger*:

Power, money, persuasion, supplication, persecution — these can lift at a colossal humbug, push it a little, weaken it a little, century by century; but only laughter can blow it to rags and atoms at a blast. Against the assault of laughter nothing can stand.

—Harper

Eisenhower Invites Freeman To Attend Conference in D.C.

President Eisenhower has invited Prof. O. L. Freeman of MTSC to attend the President's Conference on Occupational Safety, to be held in Washington, D. C., March 1-3.

Mr. Freeman, head of the industrial arts department before he asked to be relieved two years ago, has appeared frequently on programs of the national industrial arts organizations. Mr. Freeman has been cited for the exceptionally safe record compiled by the industrial arts department and machine shops under his administration since 1934 when he came to the college.

Mr. Freeman was an outstanding athlete and later a coach at MTSC. In addition to his work at the college, he operates a large farm on the Salem Road.

The Conference will bring together in the Nation's Capital more than 3,000 leaders from American industry, labor, agriculture, federal state and local governments, insurance, education, health, and private safety organizations from all parts of the country.

Their purpose is to devise and then apply voluntary, cooperative means for reducing the 13,300 deaths and nearly 2 million disabling injuries occurring annually due to on-the-job accidents.

Geared to the period of rapid technological and social change upon which experts agree the country is launched, delegates to the Conference have as their theme "The Challenge of Safety in a Changing World."

Under the general chairmanship of Secretary of Labor James P. Mitchell, the Washington meeting will come to grips with the problem of how to minimize the country's losses in manpower, technical skill, human suffering and financial waste that job accidents are causing.

Program emphasis is upon broad functional topics pointed toward new hazards during the decade of the 1960's, rather than the industry-by-industry approach used in many safety conferences.

Fantastic Weapons ---

(Continued From Page 7)

Concludes the *Digest* article: "The science of ground warfare has come as far from World War II as that war from the American Revolution. If tomorrow's average GI is to survive and conquer, he most certainly must be the best foot-soldier who ever lived."

Sissom Takes Job With U.T. Bookstore

By Louise Sullivan

Stanley Sissom, former city treasurer, at Shelbyville has accepted a position at the University of Tennessee, Knoxville, as assistant manager of the University bookstore.

A native of Bedford County, Sissom is the son of Mr. and Mrs. W. H. Sissom of Myers Street.

A graduate of Middle Tennessee State College, where he received his masters degree in his new field of work, Sissom said, "I am very, very grateful and always will be to the people of Shelbyville and Bedford County."

Included in his collegiate activities were Future Teachers of America, Alumni Beta Club, Chorus and band. He served as drum major for three years, was president of the Saundarian Society in 1952, and was elected as the most versatile student in his graduating class.

Sissom is also very active in church work, being in the choir, serving as a deacon and having held several offices. He is now a member of the Lions Club, in which he has served as treasurer two years.

National Teacher Exams Slated Here Next Week

MTSC is prepared to provide accommodations for 25 prospective teachers in this area who will take the National Teacher Examinations

being administered under the auspices of MTSC next Saturday, February 13, H. C. Kirksey, Dean of Instruction, announced this week.

Each of the candidates for the examinations has received a ticket of admission advising him of the address to which he should report to the examination. All candidates for the Common Examinations will report to the examination center indicated on their tickets of admission at 8:30 a.m. Saturday morning and will complete these examinations at approximately 12:30 p.m.

Mr. James Martin, Assistant Professor of Education, will supervise the administration of the tests, which are prepared annually by Educational Testing Service of Princeton, New Jersey.

Dr. Johnson turns another elegant phrase:

Sir, if it hasn't got it there, it hasn't got it!

Old Dr. Sam has done it again—brought his dictionary up to date in terms of modern Winston usage.

Winston (win'ston), n. A cigarette with Filter-Blend on one end and a wise man on the other.

Taste (tāst), n. What decorators argue about and Winston smokers enjoy.

Filter-Blend (fil'tēr-blēnd), n. A happy marriage of art and science. Light, mild, flavorful tobaccos are artfully selected, then scientifically processed for filter smoking.

Slogan (slō'gān), n. (e.g., Winston tastes good like a cigarette should). A statement of disputed grammar but unquestioned fact.

Front (frūnt), n. (used in conjunction with the preposition "up"). The section of a filter cigarette where if it hasn't got it, it hasn't got it. Also, the section that counts, the section where exclusive Filter-Blend is to be found.

Boswell (bōz'wēl). Nickname for a guy who is always hanging around to cadge Winstons from you.

"There is nothing which has yet been contrived by man by which so much happiness is produced . . ."
